**GRANBY PROSPECTS**  
**FOR THIS SEASON**

Granby Consolidated should treat approximately 1,000,000 tons of ore at its Anyox smelter during the coming year. Assuming a recovery of not better than 35 pounds of copper per ton of ore, the yield from that plant should approximate 35,000,000 pounds in addition to which the Grand Forks smelter should turn out 15,000,000 pounds, making a total of 50,000,000.

During the coming summer the Midas mine in Alaska, owned by Granby, is expected to start shipments. This ore will be treated in the Hidden Creek smelter at Anyox.

The usual winter interference with operations has about ceased. The agglomerator will start permanent operations just as soon as normal water power can be secured. This will also permit the entire four furnaces of the Hidden Creek smelter to run full blast. With the agglomerator the management expects four pounds of copper per ton of flue dust to be secured at a very low cost.

Although paying but \$6 dividends, Granby has been earning very much more. Assuming a cost of 10½ cents a pound the company on 20-cent copper can show profits of \$4,750,000 per annum, on an output of 50,000,000 pounds. On a production of but 40,000,000 profits would approximate \$3,800,000. The latter figure is equal to \$25 per share. —Boston News Bureau.

**Modern Beacon Fires**

THE old beacon fires were the great advertising mediums of their age. Though they could not advertise merchandise, they advertised the things of most vital interest to the people. Placed on the summits of high hills, bearing a message to thousands of "readers," they were prototypes of those modern fires of Twentieth Century commerce—the "beacon" fires of Newspaper Advertising. The advertisements appearing in the newspapers to-day are shining lights in the world of commerce, flashing out news and information to a waiting world. When the modern manufacturer lights the Beacon Fires of Newspaper Advertising he places his message before the people in a way that will impart knowledge, beget appreciation and win preference for his goods. Who can fail to see any day the gleaming messages of "Magic Baking Powder," "Standard Ideal Ware," "Sunlight Soap," "Gillette Safety Razors," "Penman's Underwear," "Infants' Delight Soap," and many others?

To the Manufacturers of Canada  
 Each day sees more articles given publicity in the newspapers. Are your products and your brand still in the valley of obscurity, or are they blazoned forth by the beacon fires of advertising on the high hill of public favor?

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
