UNITED STATES TROOPS ARE TO STAY IN MEXICO

Washington, May 2.—After a consultation with some members of his cabinet, President Wilson gave out some of his plans formulated to carry out his policy in regard to Mexico. The president purposes keeping United States troops in the field until all brigandage has been eliminated, despite the fact that General Obregon represented to General Scott that the presence of American troops had the tendency of weakening Carranza's power to control the situation.

Secretary of War Baker, in a message to General Scott yesterday, emphasized the necessity of having General Obregon strictly understand that whatever agreements are made must not be based upon the belief that the United States will withdraw the troops immediately, as the country must become peaceful before the withdrawal is affected.

A report from El Paso received here this morning says that the order given by the secretary of war that was communicated to General Obregon, spread rapidly among the Mexican of-

ficials here and cast a gloom over the situation, so far as those officials are concerned, as they had hoped that the troops would be withdrawn immediately.

SEEDING PROCEEDS THROUGHOUT ALBERTA

Reports from the prairies state that seeding is proceeding apace. Farmers state that the land is in good condition and everything points to a big crop though the area under wheat will be about twenty per cent. less than last year, at least in Alberta.

In southern Alberta sixty per cent. of the seeding has been completed; in central Alberta about forty per cent., and in northern Alberta about twenty-five per cent. A snowfall during last week has greatly benefited the land in the northern part of the province.
