THE CARE OF A PIANO

If the ear of the student be naturally musical, a piano which is out of tune will be an endless source of disturbance and torture. If, on the other hand, the musical taste and ear of the beginner be, as yet, unformed, what can you imagine would be more harmful, more obstructive to progress than an instrument which is badly out of tune, and often out of order?

Have G. C. Walker, pianetuner, attend to its needs by the year - all work guaranteed.

In the Highest Degree Profitable

Some men figure that as the mercury climbs up sales will fall down. And figuring that way, fate is kind and does not disappoint them.

So there has grown up a commercial superstition that Summer is a dull season.

No greater fallacy has ever gone so long unchallenged.

Summer is a dull season for many lines—but there is no fundamental reason why it should

For instance, take a typical case—that of the Canadian wallpaper manufacturers.

They wished to secure their placing orders from the retailers before the early Fall-when American lines are offered. Through education by Advertising, they advanced the season to start the middle of June, instead of the end of August, and they now beat their foreign competitors to the market by nearly three months.

Perhaps you face a selling problem that education by Advertising will solve. Perhaps your Summer business needs the tonic of Summer Advertising.

As the mercury climbs up to its highest degree, increase, rather than slacken, your Advertising and selling efforts. You will find it profitable—in the highest degree.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association. Room 503 Lumsden Building, Toronto. Enquiry

involves no obligation on your part—so write, if interested.
