#### WILL HE ACCEPT?

Strenuous protests have been raised by the government press since Mr. Brewster filed his now famous writ against Mr. Bowser. It is a wail of anguish, in which the premier and members of his cabinet join heartily, for in this writ demanding an accounting they cannot but see their doom.

Unable to attack Mr. Brewster on the main point involved which has already been admitted by the premier, the cry is raised that the Liberal leader is merely seeking to try a political trick. They claim that the case cannot be tried until after the next election and that it is, therefore, shown to be a dodge of Mr. Brewster's to cause trouble.

In answer to this lament, which is by no means sincere, Mr. Brewster's lawyers have written a letter to the attorneygeneral's department offering a solution of the difficulty. There need be no delay if this, suggestion is adopted. The following letter was sent by Mr. H. C. Hall, counsel for the Liberal leader, to Mr. Bowser.

"Re Brewster vs. attorneygeneral.

"We have been instructed by the plaintiff to communicate with you for the purpose of asking your co-operation in securing an early determination of the questions raised in this action.

"The evidence bearing on these questions is contained in the official records and in the journals of the house, in the parliament buildings, Victoria.

(Then follows a list of statutory provisions).

"My instructions are to support any steps which will get the action before the courts for early determination. To attain this object I am prepared to consent to any of the following courses:

"(1) Agree on a statement! of facts compiled from the ofcial records and submit the case on a motion for judgment. "(2) Serve a statement of

in a few days.

all the questions to the court leased for the firing line .- Ex. of appeal for determination under the statute for the ref-! erence of constitutional ques-

members of the court of appeal or of the supreme court bench as you may select.

"In view of the urgent necessity for an authoritative and final determination of the question raised in this action, at the earliest possible date, my instructions are to ask you for an early reply."

Surely this leaves Mr. Bowser little upon which to base his claim that the Liberal leader seeks to evade trial until after the election. The premier now has every opportunity of meeting his chief opponent in the courts, to decide once and for all the status of the attorney-general with reference cific Great Eastern.

plain that he fears an imparquestion be thrown out when although he admitted at the Six million dollars must be ac- plan. counted for and Mr. Bowser is this 26th day of April, A. D. 1916. responsible.

Mr. Brewster is playing the to delay the trial unduly nor to take advantage of his opportunity. He wants but one thing -honest government. As representative of the people of to safeguard them, and that is couver Sun.

# SPEED OF ZEPPELINS FORTY MILES AN HOUR

"Not so many years ago a British engineering expert calculated that the Zeppelin could not attain a speed of thirty miles an hour, as he proved by figures that the ship would collapse under the air By order of the German au- pressure! At the time this speed "Zeppelins and Super-Zeppelins," (John Lane).

> Today the tendency is to attribute too high a speed to the vessels. In still air it is doubtful if a higher speed than sixty-five! miles an hour can be reached, and by the most careful calculation Mr. Hearne has come to the conclusion that the average speed of the modern Zeppelin in war trim is about forty miles an hour with full load.

"Of course," he says, "with a favoring wind the ship may often be running at over sixty miles an hour, and the difficulty of gauging wind speed often causes erronous estimates of Zeppelin speed by The enterprising firm of Fuller observers on land. In the upper & McMeekin are now having a regions where an airship is movlaundry soap specially packed for ing there may be a strong current, their own trade.
