The new invention, which for obvious reasons is not described, thoroughly destroys the German barbed wire entanglements and enables the British and French troops to advance without interruption.

No Mud Has "Stuck"

Sir Charles Hibbert Tupper was invited to speak at the Liberal meeting held in Vancouver last night, but, owing to an important appointment in Winnipeg, was unable to be present. The following is his reply to the invitation.

Vancouver, B. C. June 28, 1916.

M. A. Macdonald, Esq., Barrister, etc., co. Messrs. Russell, Macdonald & Hancox, Credit-Foncier, Bldg, Vancouver. My dear Macdonald,—I have to go to Winnipeg on an important appointment, otherwise I would be glad to attend the public meeting which I understand, is to be addressed by Mr. Brewster and you.

Some other opportunity will occur when I can personally express in public my admiration for the manner in which Mr. Brewster and you discharged your duties during the last session and for the complete justification so afforded of those Conservatives who, like myself, voted for you at the by-election.

None of the mud so persistently thrown at you has stuck. You have signally shown that the reputation of an honest man cannot be affected by the machinations of a desperate, discredited conglomeration of political opponents, even though the public chest be open to them in their malicious work.

It is beyond question that the government of this province is tottering to its fall, and, in my opinion, unless much of the legislation of last session is repealed by the next government, its fate will be the same.

I firmly believe that the people as a whole are determined to have clean, honest government and sane legislation, and care little what party flag is flown.

Yours faithfully,

CHARLES HIBBERT TUPPER.

RAY McDONALD IS AMONG THE WOUNDED

Mrs. McDonald has received word from Ottawa that her son Ray has been wounded in the recent fighting on the western front. There is also a report by mail from England that Wilfrid McDonald has been wounded, but, as there is no official report, this is probably incorrect. It is to be hoped that Ray will soon be fit again.
