B. C. SOLDIERS IN ENGLAND WILL VOTE

Victoria, July 10.—Premier Bowser today received a cable from Sir George Foster who is now in England stating that the War Office was quite agreeable to British Columbia soldiers who are now training in England taking part in the coming provincial election. The proposal to have them vote for their home candidates will, therefore, be carried out.

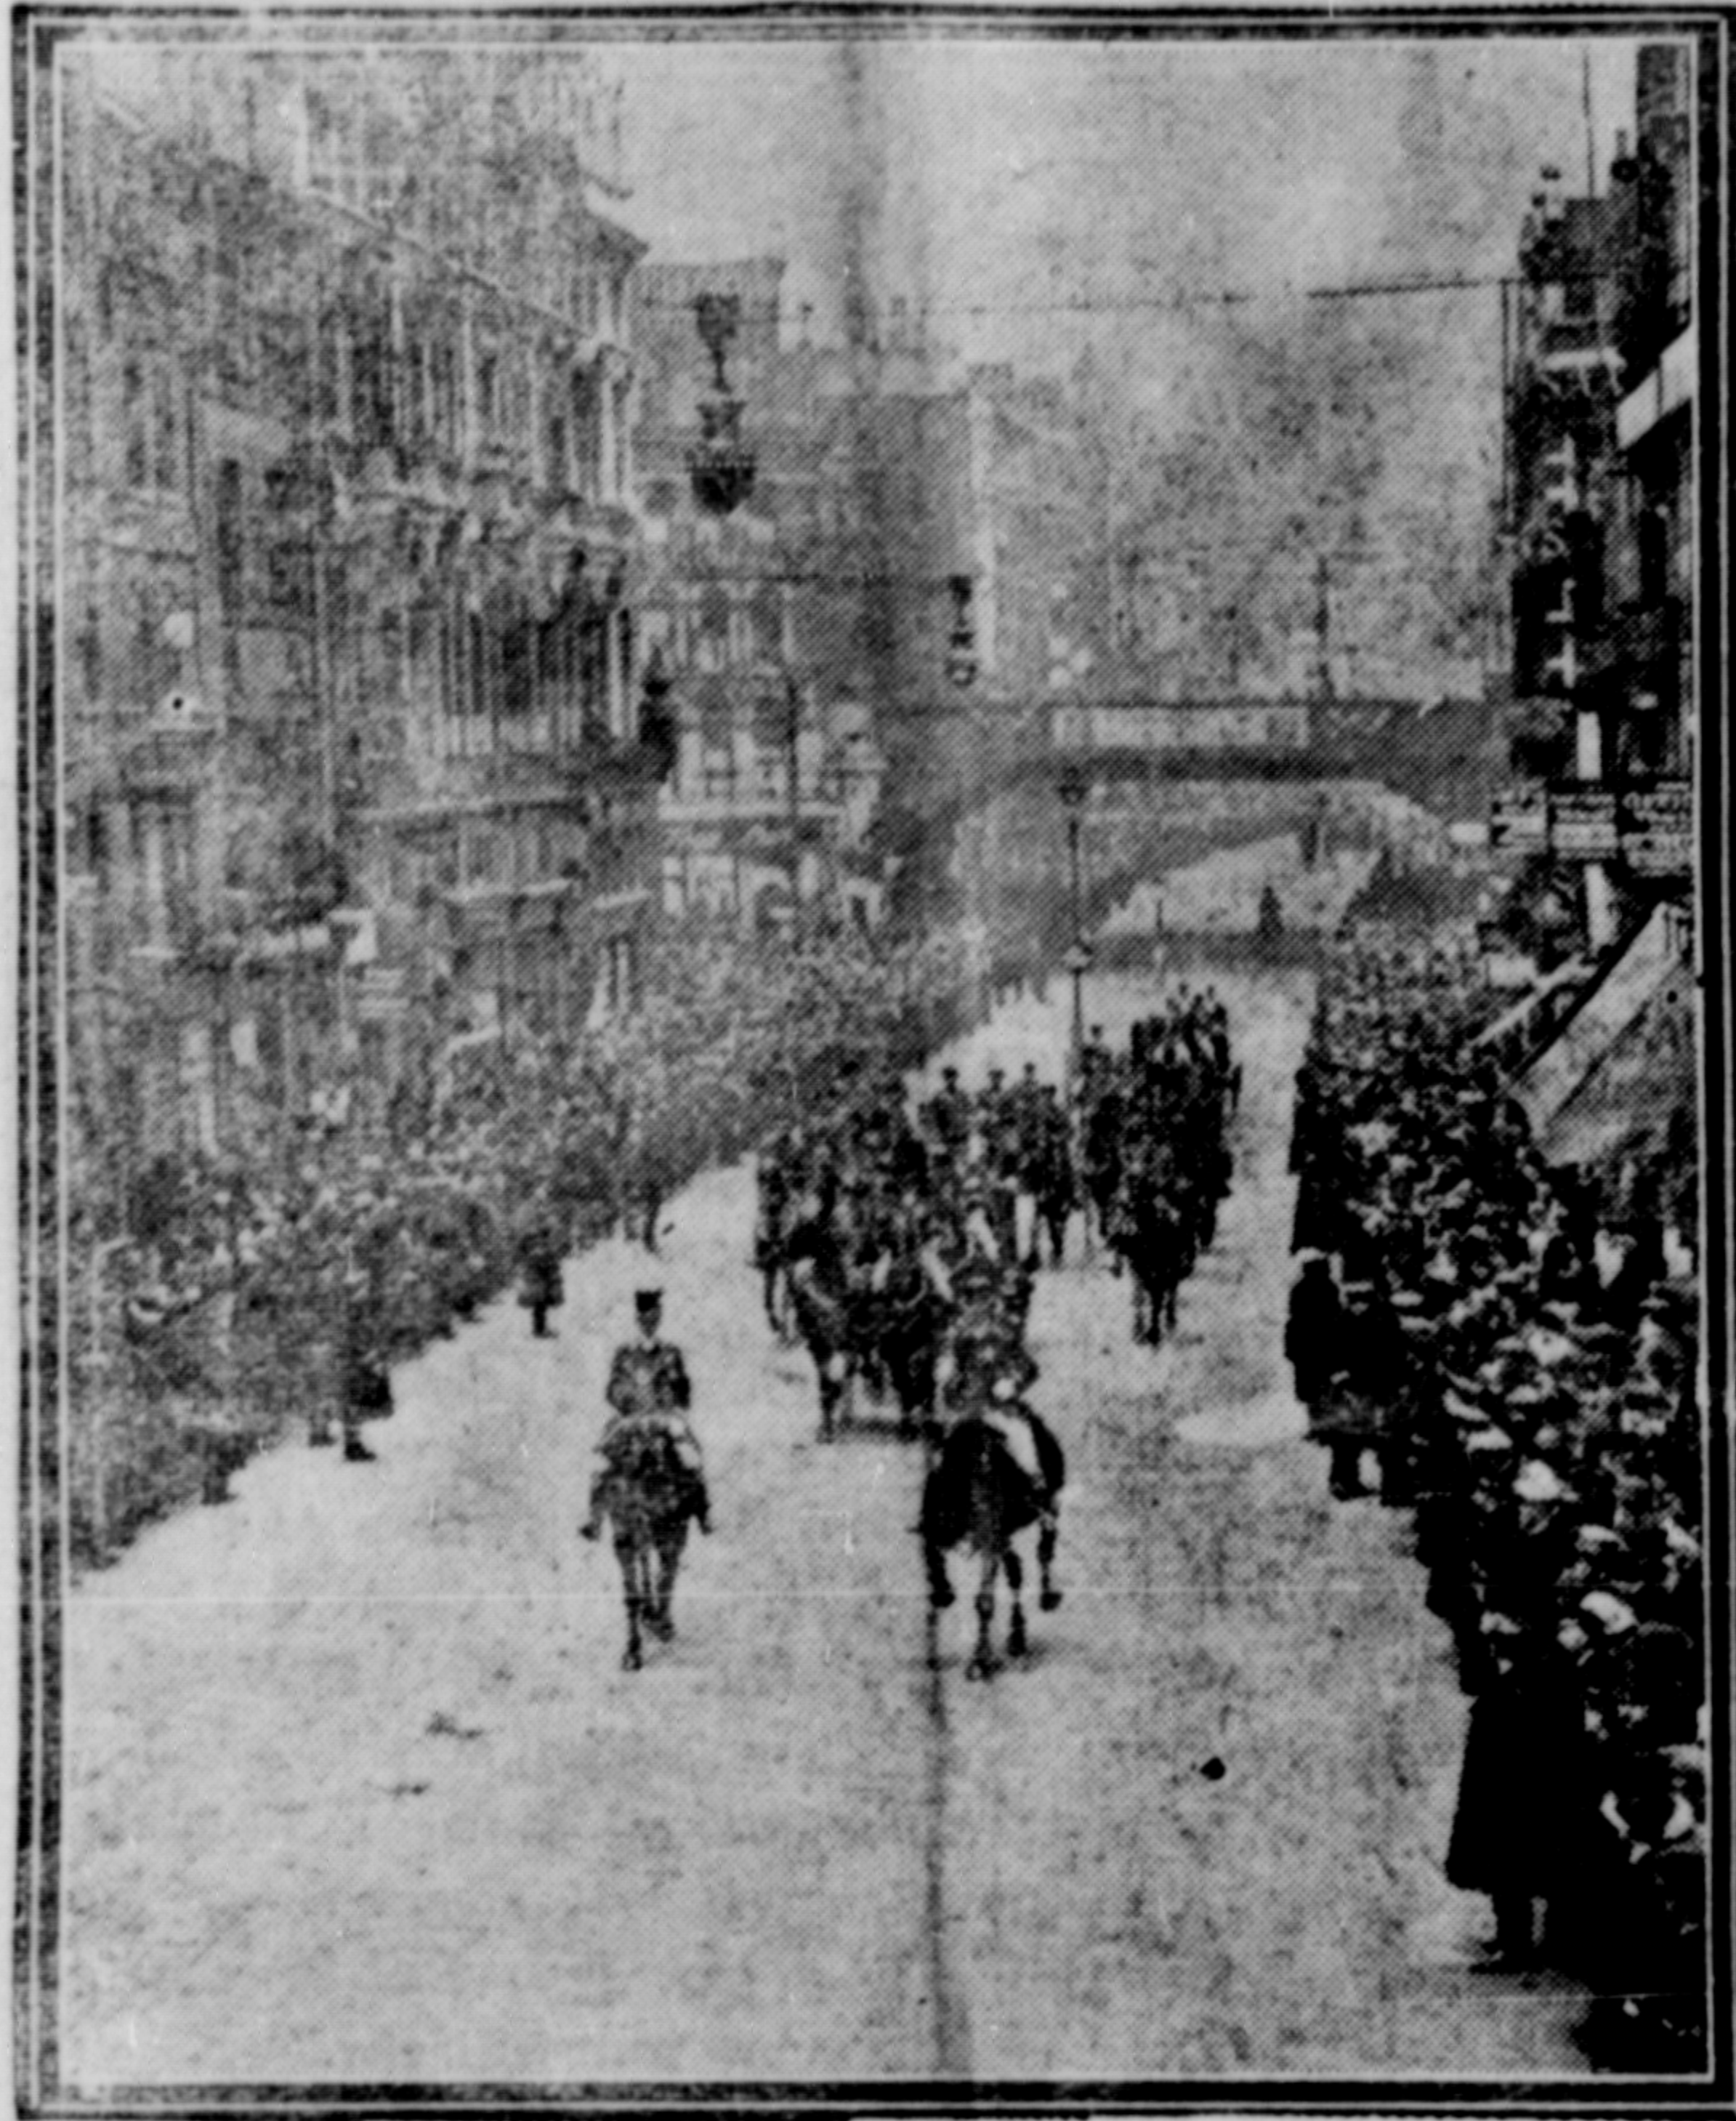

It will be manifestly impossible in view of the fact that every British soldier is busily engaged in the "Big Push," to attempt to secure the votes of men now at the front.

WELCOME COMMITTEE FOR RETURNED SOLDIERS

The returned soldiers concert in the Westholme last evening was much more than a concert. It was the beginning of an organization for the reception of men returning from the battlefields of Europe. The following resolution was moved by Mayor McCaffery and seconded by Mrs. W. P. Riley: That a committee be formed to select members of a Returned Soldiers Welcome Committee, the members of the committee to consist as far as possible of representatives from the existing patriotic societies of Prince Rupert.

The resolution was carried unanimously and Mrs. W. P. Riley, Mayor McCaffery and Canon Rix were appointed as a selection committee.

In opening the concert, Canon Rix, chairman, said that some such organization should have been formed long ago. He described how H. A. Harvey, with the assistance of Mrs. Riley and others, had prepared a reading and rest room for the boys and that out of this small beginning this larger movement had taken form. There was much to be done as an increasing number of men would be returning and he felt that the citizens would realize the duty which fell upon them in regard to the welfare of the men who had done so much for the Empire and for Canada.

Besides a very fine picture show the following artists contributed to the musical program: Mrs. J. H. McLeod, Miss Wright, J. E. Davey, C. D. Jones, Meth Davies, J. Sinclair, and George Waddell, solos; dances by Gladys Kemp and the Bailey Sisters, and piano solo by P. C. Daugherty. The accompaniments were played by Mrs. C. A. G. Armstrong, P. C. Daugherty and W. V. Davies.

The Westholme Theatre was packed and uniforms were largely in evidence, the ushers being men of the Irish Fusiliers along with two of the returned men. The concert was thoroughly enjoyed and encores were frequent.

SERBIA'S SOLDIERS WILL TAKE REVENGE

Corfu, July 12.—The following semi-official statement is issued here today:

For some time a section of the German press, headed by the semi-official journal has been spreading reports, the object of which cannot escape anyone, regarding alleged desertions by Serbian soldiers, and stating that Serbian soldiers do not wish to participate in future operations. We consider it unnecessary to deny these tendentious rumors, for soon the Serbian troops, well equipped, endowed with superb morale, and conscious of the imminence of their revenge, will give the Germans the lie in a material manner.—Reuter.

MATHEMATICAL PRECISION OF SOMME ADVANCE

Anglo-French Advance Proceeds Like Steam-roller—Germans Make Tremendous Sacrifices.

(Special to The Daily News.)

Paris, July 13.—The Allied advance on the Somme front is considered to be of the nature of a steam-roller proceeding with mathematical exactness along the lines originally planned by Earl Kitchener and General Joffre.

Tremendous Sacrifice.

The Germans have gained a little ground at Sainte Fine, but the gain was made at a tremendous sacrifice in men.

The British have regained ground which they lost at Mametz wood and have repulsed German attacks upon Contalmaison which the British captured on Tuesday. The presence of a great number of German dead in the region of Trones wood is ample evidence of the great sacrifices made by the Germans during the strenuous ten days' fighting at this point.

German Air Raid.

Berlin, July 13.—German aeroplanes have bombed Allied military encampments at Calais.

DEUTSCHLAND HAS TWO SMALL GUNS

American exchanges give some interesting details regarding the transatlantic submarine Deutschland, which arrived at Baltimore the other day. The craft is 315 feet long and carries a crew of twenty-nine men and a captain. She has a sea speed of several knots faster than the average freighter. The voyage from Bremerhavn, at the mouth of the Elbe, to the Virginia Capes occupied sixteen days.

She carries no torpedoes but has two small guns, presumably for defense. The captain reported passing within 500 feet of an Allied cruiser but escaped by diving. She was launched at Kiel in March and is owned by the Ocean Rheiderei, Ltd., of Bremen.

Germans in Baltimore hailed the arrival of the submarine with delight, as evidence of the partial breaking of the Allied blockade of the German coast. The public will not be allowed to inspect the new commercial underwater craft, nor will anyone but the federal authorities be allowed to go aboard of her.
