WASTE

Short of any defence against the Brewster charges of ruthless waste and extravagance. the Bowser machine press charges the coming premier of British Columbia with preaching "blue ruin." One glance at the public accounts of this province is enough to convince any man who knows the debit side of an account from the credit that this province is in a morass of debt from which it will take many years to climb out. The public accounts are not presented to the people in any very clear form, but the total expenditure and revenue cannot be hidden.

This province is carrying a debt of over thirty millions of dollars and, judging from the! estimates brought down by the Bowser administration in the last Legislature, this amount might continue to grow indefinitely so far as they were concerned. Had this huge debt been incurred in building up revenue producing works there would be little cause for alarm, but, when one remembers that millions of it was incurred simply to keep the Bowser machine in charge of the public purse, there is ample reason for Mr. Brewster's timely warning.

Ten thousand dollars per mile has been spent on alleged roads in the Queen Charlotte and yet the public have no ac- men. cess to the heart of this wild-

the confidence trick of buying run. the voter with his own money.

a people in a very different tember 14th. frame of mind. The delirium of real estate speculation is over and this province has no more use for a real estate government. Nothing but the wreck remains, and a time of rebuilding is due. The rebuilding will be done by H. C. Brewster with a sane, sober government behind him. It will take long to wipe out the errors of the McBride - Bowser regime, and incidentally to pay its debts, but those debts will be paid and the province will get away to a new start and a real start on the road to real prosperity.

NOTES AND COMMENTS
