BERLIN SAYS ROUMANIA HAS DECLARED WAR

ITALY DECLARED WAR ON GERMANY—IMPORTANT MILITARY CHANGE IN GREECE

ROUMANIA HAS DECLARED WAR ON AUSTRIANS

Official Report From Berlin Says Italy has Declared War on Germany—Russians Attack Varna.

(Special to The Daily News.)

Berlin, Aug. 28.—It is officially announced that Italy has declared war on Germany and a later official despatch states that Roumania declared war on Austria and Hungary last night.

Balkan Front.

London, August 28.—Violent fighting continues between the Bulgarians and the Serbians on the Macedonian front in the region of Lake Ostrova.

The Bulgarians have captured all the forts in front of the Greek port of Kavala except one.

Attack on Varna.

Twenty-seven seaplanes have bombed the buildings and anti-aircraft batteries at Varna, the important Bulgarian port in the Black Sea.

FOURTEEN AUTOS COLLIDE IN RACE

(Special to The Daily News.)

Kalamazoo, August 28.—Two were killed and eight injured when fourteen automobiles collided in a hundred-mile race at Recreation Park. The cars were travelling at a terrific pace and when two cars collided in taking a corner, the cars following up were unable to avoid them as they were hidden by dust.

PIONEER DEAD

(Special to The Daily News.)

Vancouver, Aug. 28.—Captain Adolphus Peele, one of the old pioneers of the coast, died at his residence at New Westminster yesterday. Captain Peele crossed the Isthmus of Panama in 1862 and came north on account of the great stories of gold discovery in the Cariboo country. He had been a resident of New Westminster since the sixties.

FAMOUS SURGEON DEAD

COMMANDER OF GREEK FORCES FAVORS ALLIES

Significant Change at Military Headquarters at Saloniki—Russians are still Gaining.

(Special to The Daily News.)

Athens, August 28.—By Royal decree, Greece has appointed General Constantine Moschopoulos, an avowed friend of the Entente Powers, as commander of the Greek forces in Saloniki. The new commander will act as Chief of Staff and succeeds General Dousmanis, who has been granted an extended leave of absence.

Russian Front.

Petrograd, Aug. 28.—The Russians continue to advance in the Carpathians and have captured Austrian positions three miles northeast of Koverla Mountain.

On the Riga front, which has been comparatively quiet for some time, the Russians are now commencing a general offensive.

Believe Bremen Sunk.

New York, Aug. 28.—The story that British cruisers sunk the German submarine trader Bremen is generally accepted as true in German official circles.

EASTERN STAR

Mrs. F. Jones, Grand Matron of the Order of the Eastern Star; Mrs. E. Douglas, Grand Lecturer; Mrs. Laird, Grand Secretary, and Mrs. Captain Gosse, Grand Matron of Winnipeg Chapter, who have been here to consecrate the local Chapter of the Order of the Eastern Star, have returned south. The ladies were highly delighted with their visit to Rupert and were particularly pleased with its climate. They visited the drydock and the cold storage on Saturday forenoon and had a launch trip round the harbor in the afternoon.

RECRUITS WANTED

Men are urgently needed for the Canadian Engineers. Major Ward, who is in the city from Vancouver, says that he can use 500 men if they are available, as sixty men per month are needed for reinforcements. Men of all occupations are acceptable, but particularly those who have had experience of construction work. Training is given to those who have not had this experience and there is no delay in getting to the front.

T. D. PATTULLO CHALLENGES WM. MANSON TO DEBATE ISSUES

The report published in the morning paper of Hon. Wm. Manson's trip to Queen Charlotte Islands is amusing. If Mr. Manson is satisfied with his political outlook there, he has surely already made up his mind to pass into private life after September 14th next.

Is Mr. Manson also satisfied with the economic situation on the Islands? Are the people on the Islands satisfied with the present situation? Why have settlers had to leave in hundreds during the past two years? What has the government done to help the situation? What has it done for the Islands at all other than to waste thousands of dollars in attempting to buy the support of the settlers through the road fund?

The Islands are all right, but the government is all wrong and the people of the Islands know it, as will be shown upon election day. All that the people of Prince Rupert need to do in order to understand conditions existing in the outlying districts is to ask themselves the question—"How has the government treated Prince Rupert?" The answer to that question will tell you how the government has treated this whole north country.

At the usual smoker I notice that Mr. Manson took occasion to refer to my attitude upon the matter of public utilities, comparing it unfavorably with his own. We will be holding a public meeting in Prince Rupert in the course of a fortnight and I would be glad if Mr. Manson, and any of his supporters who care to do so, would debate the issues of the public utilities of Prince Rupert on that occasion.

I have charged at some meetings that I have held that Mr. Manson has been and is a supporter of a government that is the most inefficient and most corrupt we have ever had in Canada. He today is a part of that inefficient and corrupt government. He is an accessory both before and after the fact and the nefarious practices that have been carried on can no longer be hidden under the cloak of personal respectability.

The time has come when illegality must no longer be made legal by acts of the legislature in order to favor some parasite of the government and save him from the penalty of the law. According to the government's argument, if a man commits murder, the act can be made a perfectly legal one, and worse still a quite proper one, by an act of the legislature validating the crime. This provincial government of ours has been teaching the people an outrageous perspective of what constitutes right and wrong. Bowser is nothing more nor less than a hardened monster whose sanity may well be questioned. My opponent, Wm. Manson, however well intentioned he may be, is a weak, sycophantic follower, who doubtless does not realize the moral obliquity involved in the course which he has been pursuing.

It is time for a change. We must have a strong virile government which is perfectly free from entangling alliances, which will pull things together and which will bring about the development of our resources in the interests of the people as a whole, as against a few exploiters.

ENEMY COULD LAND TROOPS NEAR NEW YORK

(Special to The Daily News.)

Newport News, Aug. 28.—After studying carefully the naval manoeuvres carried out off this coast by the United States navy, Rear-Admiral Knight asserts that under favorable weather conditions an attacking fleet would have excellent chances to land troops within twenty miles of the city of New York.

STRIKE SITUATION IS STILL SERIOUS

(Special to The Daily News.)

Washington, August 28.—The Railway Brotherhoods yesterday delegated twenty-four representatives to continue negotiations with President Wilson in an effort to prevent a strike. The men declare that a general strike will be ordered on Friday unless an agreement is arrived at.

WANTED

50 Laborers, \$3.50 for 9 hours for Shaw Larsen Mine & Milling Co., at Dorreen Station. Apply H. E. Ross, Empress Hotel. 202.

MAYOR M'CAFFERY WILL OPEN TELKWA BARBECUE

Mayor McCaffery has been invited to perform the opening ceremony at the Bulkley Valley barbecue at Telkwa on Labor Day, and has accepted the invitation. The farmers of the Bulkley are determined to make this event something bigger than anything of the kind ever held in this district before and are anxious that many of the Prince Rupert business men should be at Telkwa on that occasion. There will be a big cattle sale, followed by horse racing and winding up with a big dance in the evening. Ranchers from far and near will be there and the celebration is likely to become an annual event.

FALLING TRENCH WALL KILLED "BILLY" KIRK

Constable Adams has received a letter from the mother of "Billy" Kirk, in London, England, in which she gives particulars of her son's death. On August 4th, a trench wall, blown up by a German shell, fell on Billy and severely injured his spine. He was admitted to hospital and died the same day, recovering consciousness just before he died, he was able to send his love to his mother and then passed away. Mr. Kirk was thirty years of age and was one of Prince Rupert's real old timers, having been here since the early days. The sympathy of all citizens will go out to the broken-hearted mother in England.

CRICKET

In the return game between teams representing Scotland and England, at Recreation Park on Saturday afternoon, the English side turned the tables on the "Scotties" and won by 93 runs to 50. The feature of the English innings was the fine batting of Bowerman, who carried his bat practically throughout the innings. Sharpe, for the Scotch side, did well both in batting and bowling.

YOUR JOB IS SAFE

Perhaps not as a bartender, but by increase in other lines. Usually in Winnipeg on Monday morning some 120 people were "unemployed" because they were in jail for drunkenness, but on the third Monday of Prohibition there was not a single prisoner. They were all at work. The chief had to hire scrubbers to clean up. That made a few more jobs, didn't it? A hotel at Brandon turned its bar into a store which gave employment to seven times as many clerks as there had been bartenders. Booze kills business—Prohibition makes business. Vote Yes for the B. C. Prohibition Act.

SCOTCH FISHING BOATS TURNED OVER TO DUTCH

Agreement Signed Between Dutch Association and the British Government—20 per cent for Germany.

(Special to The Daily News)

London, August 28.—It is reported that the British government and the Dutch Fishing Association have signed an agreement providing for the release of a hundred and twenty fishing boats which are tied up in Scotch ports from the lack of crews, on condition that Germany does not receive more than twenty per cent. of the season's catch.

So many of the Scotch fishermen have joined the navy and fishing conditions in the North Sea are so dangerous on account of the German submarine warfare, that the British fish market has been practically depleted of supplies of all kinds of fish. It is believed that this agreement with the Dutch fishermen will relieve the situation to a large extent, even if Germany does benefit to the extent agreed upon.

LOST IN THE FOG

There were about five hundred visitors to the Salt Lake yesterday afternoon and every little bay along the harbor had its company of picnickers. Most of the boats returned home before the fog came down thickly, but several parties had rather trying experiences in making this side. Two boys in a canoe paddled in a half circle and struck the other shore again and a rescue party had to go out early this morning to bring them home. Several launches wandered up the bay as far as the Cold Storage in trying to strike their usual landing places. There should be a big trade in compasses for the next few days.

HALIBUT ARRIVALS

The American halibut schooner Alaska, which left here last Sunday for the banks, returned yesterday with 95,000 pounds which was bought at 6 1/2 cents. The Glacier had 13,000; the Shamrock, 30,000; the Alliance, 12,000, and the Aurora 10,000, which sold at 7 1/2 cents.
