AMERICAN FINANCIER HERE LAST EVENING

Mr. Leadbetter, vice-president of the company which is operating at Ocean Falls, passed through the city last evening on his way from New York. Mr. Leadbetter will pay a visit to Ocean Falls on his way home to Portland, Oregon.

He states that the company expects to have its new plant in operation early in the new year and look forward to big developments. There is a large amount of capital invested there and they will make a big effort to produce adequate returns.

This is the first occasion on which Mr. Leadbetter has travelled over the G. T. P. and he was greatly impressed with the scenery and with the road. He thought Prince Rupert had one of the finest harbors in the world and all that was needed was a start in the trans-Pacific trade, to make the harbor one of the busiest on the B. C. coast. On the way east, he met R. P. Trimble, with whom he discussed the mining possibilities of the interior. He recognizes that there is a big field for capital in mining here and that some day soon there will be great developments.
