BOWSER MUST GO

STILL UNANSWERED

Until the Bowser party is able to answer the following questions to the satisfaction of the public, there is no hope that their machine men, F. W. Welsh and John L. Sullivan, can escape from public condemnation in connection with the "plugging" at the Vancouver by-election.

Why did not John L. Sullivan have the immigration officers turn back the "pluggers" at the crossing of the boundary line?

How did Fred Welsh know from whom the wireless message came when they were unsigned?

Why did Welsh destroy the letter supposed to have contained incriminating evidence against the Liberals, which he received from Sullivan?

Why did Welsh destroy the two wireless messages which he claimed contained incriminating evidence against the Liberals?

Why did Welsh, under oath, deny all knowledge of the presence of these men, when his landlord, Clark, a staunch Conservative, swore that he personally told Welsh of their presence on two occasions on the morning before the election?

Why did Welsh not notify the police until the afternoon of election day?

Was it a likely thing for Liberals to have "pluggers" over Mr. Welsh's store?

Why did Welsh have the soap contractor add the \$25 to his tender to the school board?

Why did Welsh quit the Vancouver Bowser ticket, or was he compelled to do it?

Why was Welsh sent to London to supervise the taking of the soldiers' vote?
