Prisoners and Guns Taken—The Trenches Filled with German Dead—Big Air Battles—British Successes.

(Special to The Daily News.)

London, Sept. 16.—The Canadians advanced nearly a mile in the Somme offensive and captured a number of prisoners and guns. They discovered the German trenches filled with dead as a result of the bombardment preceding the infantry attack.

Air Battles.

British airmen yesterday, in addition to bombing German aerodromes, railway stations and troop trains, destroyed a German balloon and thirteen aeroplanes, besides damaging nine.

Four British machines are missing, as a result of the great raid.

French aviators also inflicted severe damage to property and succeeded in destroying hostile machines.

British Gains.

The British have torn open the enemy defences at Thiepval and in a terrific battle the German losses were very heavy. Three villages have been captured and the British now occupy all the high ground around Pozieres and have captured a German redoubt which was regarded to be impregnable.

FRANK MOBLEY HAS A MAJORITY OF 38

There is little doubt that Frank H. Mobley is safe in Atlin. The figures given in The Journal this morning are not correct, according to the returns to hand. Last night, the Liberal candidate had a majority of 31 and this morning, he was given seven votes to his opponent's nothing at Englemer Mine, so that his majority should be 38.

Bowser 182 Behind Last Liberal—Prohibition and Woman Suffrage Carried Heavily—Tupper's Work.

(Special to The Daily News.)

Vancouver, Sept. 16.—Thirty-seven Liberals have been elected, with nine Conservatives and one Socialist.

M. A. Macdonald headed the poll in Vancouver with 7,126 votes and P. Donnelly got sixth place with 5,645. W. J. Bowser headed the Conservative list with 5,463, being 182 behind the last Liberal. It is expected in Conservative circles that the soldiers' vote will elect Bowser.

Brewster's Remarks.

H. C. Brewster, who will be British Columbia's new premier, claims that the victory is a protest from all parties against corrupt administration.

Soldiers' Voting.

The soldiers are still voting at certain places at the front. It is expected that there will be twenty thousand soldiers' votes polled. The result of this voting may alter some constituencies, but it will not alter the general result.

Prohibition.

Prohibition is leading by 7,500 and is still gaining. The prohibition leaders are confident that the soldiers will increase the majority and the "wets" practically concede defeat. The act will come into force on July 1st of next year.

Woman Suffrage.

Woman Suffrage carried by an enormous majority throughout the province.

T. D. Pattullo is receiving many telegrams of congratulation from all over the east.

GENERAL STRIKE MAY DEVELOP ON MONDAY

(Special to The Daily News.)

New York, Sept. 16.—The Central Federated employees, who are closely affiliated with the operation of the traction lines, decided last night that they would strike on Monday unless the traction companies agreed to recognize the union. Many other organizations are ascertaining the sentiment in regard to a general sympathetic strike.

DOMINION ROYAL COMMISSION HERE

The Rt. Hon. Sir George E. Foster, Sir Edgar Bowring, Mr. William Lorimer, Mr. and Mrs. Joseph Tatlow, with Mr. Harding, secretary, and Mr. Bridgman, clerk, arrived from the east on the private car Natalie, last night. The gentlemen from the Dominions Royal Commission which is gathering information regarding our harbors, trade possibilities, etc. This afternoon they will visit the drydock, cold storage plant, cannery, etc.

Sir George, who is one of the greatest orators of the Dominion, will address a meeting in the Empress Theatre this evening on "Industrial and Trade Development After the War." Sir George has travelled extensively and speaks from a ripe experience of the world's trade and his address should be the finest thing of the kind ever heard in this city.

Interviewed by The Daily News last evening, he had many questions to ask in regard to fishing, mining and the development of the farming lands of the north. He is satisfied that the hinterland of Prince Rupert will be able to provide produce for this city and district, but for big development, Prince Rupert must depend upon fishing, mining and whatever transport trade may arise from our proximity to the East.

In discussing the result of the provincial election, Sir George remarked that he feared that the Liberals had too large a majority and that a stronger opposition would have made for more strength in the government. The party will leave for the south on Sunday evening.

(Special to The Daily News.)

King Constantine of Greece says that the Greek nation will be ready to join the Entente Allies when an advantageous moment arrives.

Prince Killed.

Berlin, Sept. 16.—It is officially announced that Prince Frederick William of Hesse has been killed in the fighting on the Balkan front.

REMARKABLE FACT

One remarkable feature of Mr. Pattullo's campaign was that, in all the eighteen months the Liberal candidate was canvassing this constituency, not one man ever approached him with a request for a job. In this there is great hope for the future, as it is the man looking for a job who is responsible for the large part of the troubles of a government. This fact is also highly complimentary to the electors of Prince Rupert.

The Prince George was delayed in her departure for the south this morning as she had a carload of blister copper to unload for transshipment to the east.

T. D. PATTULLO STILL HAS MAJORITY OF 151

The latest returns from outlying points in this constituency give a majority for T. D. Pattullo of 151. There are still a number of places to hear from, but there is little doubt but that Mr. Pattullo's final majority will be in the neighborhood of 150.

Lloyd George has stated to the associated press that there appears to be a deliberate campaign on the part of German agents in the United States to create doubt regarding the good faith of His Majesty's government regarding the use of information obtained through the mail censorship. The minister added that full protection was given to all honest business.
