CANADIANS SUFFERED HEAVILY ON SOMME

TAKE TRENCHES IN FACE OF DEADLY MACHINE GUN FIRE—ITALIANS ADVANCING

CANADIANS WERE IN WARM CORNER ON SOMME FRONT

Take Trenches—Driven Back—and Take Them Again—Faced Very Heavy Machine Gun Fusillade.

(Special to The Daily News.)
Ottawa, Oct. 13.—A cablegram from London to the Militia Department announces that the Canadians have been engaged in particularly desperate fighting on the Somme front. The encounter has lasted almost incessantly all week and the British and Canadian forces attacked along a frontage of thirty-five hundred yards.
They captured several German trenches but were driven back into the barbed wire entanglements, where the enemy directed a terrible machine gun fire into the ranks of the Canadians. The men from Canada again advanced and succeeded in penetrating the German trenches and inflicted severe casualties upon the enemy.
It is feared that the Canadian casualties are heavy, the battalions from Ontario, Manitoba, Alberta and British Columbia being the greatest sufferers.

MISS ELIZABETH BANKS RETURNS TO RUPERT

Miss Elizabeth Banks, the well known journalist and authoress, returned this morning from Seattle, where she has been visiting for two weeks. Miss Banks is an American citizen who is equally famous on both sides of the Atlantic. For years she has done special work for the London Daily Express and is touring this country and the United States gathering data for a series of articles for that journal, and incidentally material for a novel dealing with Canadian life. This talented lady has devoted much of her time and energy on behalf of the Red Cross Society since the war broke out, and has been instrumental in raising large sums through the sale of delightfully interesting little dog stories.
Miss Banks holds strong views as to the place of the United States in the present world's crisis and is not afraid to express them. She is a great admirer of the ability and strength of Col. Roosevelt. Miss Banks will be in Chicago during the presidential election campaign and will write it up for the London Express.

HEARST NEWS BUREAU FIRMLY DEALT WITH

(Special to The Daily News.)
London, Oct. 13.—The International News Service, Hearst's organization which collected and distributed war news throughout the United States and Canada, has been denied all further use of the official press bureau cable and other facilities for news transmission, on account of its garbled war despatches and breaking faith with the bureau.

TAX SALE

At the opening of the city tax sale yesterday morning, William Beveridge entered a protest on the ground that the sale would not be valid, by reason of an order-in-council passed some time ago. City Solicitor Peters assured intending buyers that the sale would be perfectly valid.
Bidding was quite brisk, particularly for property anywhere in the vicinity of the drydock. F. W. Hart bought in a double corner on Third Avenue for \$1,736.94, but most of the inside property went to the city, most of the bidders devoting their attention to outside lots which did not carry such heavy responsibilities. When the sale closed, everything had been disposed of except the section 8 lots and these were sold this morning.

The halibut schooner Alameda brought in 9,000 pounds of fish this morning.

TRADES AND LABOR COUNCIL MEETING

At the regular meeting of the Trades and Labor Council on Tuesday evening, over which S. D. Macdonald presided, credentials were presented by J. Dean, representing the Engineers' and J. Pilford, representing the Longshoremen's Union.

A communication from the Legislative Committee of the Board of Trade was read, regarding the proposal to remove the embargo on foreign labor into British Columbia. Messrs. W. E. Thompson, J. J. Anderson and J. Pilford were appointed as a committee to confer on the matter.

The meeting endorsed the principle of a petition now being circulated by local fishermen, requesting Premier Borden to take steps to abolish Oriental labor in coast fishing.

The question of the right of certain restaurants in the city to hold a union card was also brought up. It will be reported upon at next meeting.

Arthur Cuthbert has been engaged to make a canvas of the city, to see to it that, from a Trades and Labor standpoint, as many names as possible are enrolled on the municipal voters' list. J. Morrison, of the Electrical Workers' Union, was elected treasurer, vice A. J. McLennan, who is leaving the city.

JAP ACTIVITIES ON GRAHAM ISLAND

As was reported in The Daily News the other day, the Japs at Ikeda and Jedway are salting huge quantities of dog salmon for shipment to Japan. The Japs, having no license to fish for salmon over there, got over their difficulties very nicely, though it is questionable if their methods were strictly according to the ideas of the Fisheries Department which is so rigid in its regard for the conservation of anything that looks like salmon.

It appears that the Japs got the use of Aliford Bay cannery in which to do their salting and that they also got the use of the cannery nets with which to do their fishing. Of course, they did not actually do the fishing themselves but persuaded the Indians to fish for them. They paid the Indians three cents per fish, while the rental they paid to the cannery for the use of its nets and cannery building was one cent for each fish taken. They have put up several hundred thousand dog salmon very cheaply and they are now busy shipping them to Japan. The Japs are enterprising in any line of business and they are working up quite an industry on Graham Island. They are also devoting attention to the refining of dog fish oil, which is a valuable commodity these days.

(Special to The Daily News.)
Rome, Oct. 13.—The Italians are moving steadily in the direction of Trieste and have captured additional points of vantage and seventeen hundred and seventy-one prisoners.

On the Carso Plateau, the enemy made heavy counter-attacks against the positions recently captured by the Italians but they were repelled on each occasion.
