French Successes.

THE AUSTRIAN PRIME MINISTER ASSASSINATED

Action Induced by Refusal to Convene Parliament—Norway Causes Germany to Protest.

(Special to The Daily News.)

Vienna, Oct. 23.—The Austrian Premier, Count Karl Stuerghk, has been assassinated. His assailant declares that purely political reasons were responsible for his action, which was induced by the refusal of the premier to convene parliament.

the assassination of Stuerghk is significant in that parliament was prorogued when the peace element became urgent in their demands and it was decided that the only method of preserving internal peace was to close the house.

Germany Protests.

Christiania, October 23.—The German minister has presented a note to the Norwegian government protesting against the Norwegian embargo upon all submarines of the belligerent countries. The action of Norway was the result of the passage of German submarines within the three mile limit of the Norwegian coast.

London Report.

London, Oct. 23.—The embargo put upon submarines of belligerent countries by Norway is considered here to be the prelude to important steps designed to check Germany's unbridled and vindictive sinking of Norwegian steamers, regardless of all law and humanity. It is not unlikely that Norway will stop all exports to Germany of material likely to be used in war. Popular feeling in Norway is running high and the people are demanding that the government take action against Germany.

PRIVATE W. G. OAKLEY AMONG THE WOUNDED

W. G. Oakley received a telegram from Ottawa this morning stating that his son, Private W. G. Oakley, was wounded on Sept. 26th. This young soldier, who was formerly with Harry Atkins in this city, is about nineteen years of age and had been in the trenches for six months. He comes of fighting stock, his grandfather having been through the Crimea and Indian mutiny, while his father carries both South African medals, one with six clasps. Mr. Oakley senior was formerly in the famous Scots Greys and was in South Africa for two years, going through the hardest of the campaign. The many friends of the family will hope that the boy will soon be fit and well again.

GADSBY DEALS WITH RECRUITING SITUATION

Ottawa, October 20.—Recruiting is practically at a standstill in Canada and the government professes to be at a loss to know the reason. Many reasons have been suggested by candid critics. Some of them follow.

Reason No. 1—An impression has got abroad that the government never intended to recruit five hundred thousand men anyway. Not long after Premier Borden made the announcement, some of the government's most influential and wealthy friends declared that it couldn't be done without seriously weakening the manufacturing industries of the country, since which time the government has had cold feet on the subject. It is freely stated that the five hundred thousand was only a bluff, and that the government sprung it to stop further bidding.

Reason No. 2—The registration scheme is said to be another bluff. Up to date the government has introduced no compulsory element into it. Men may register or not as they see fit. The government has no idea of doing anything more than the September Morn Act—that is to say, shiver on the brink. The chief object of the registration scheme is apparently to mark time. Like the old maid who was once kissed, the government "likes to talk about it," but that's about as far as it gets. The registration scheme is in the hands of a Toronto lawyer, who is now a member of the Headquarters Staff at Ottawa, having occupied this non-combatant position since the beginning of the war. The Captain was lifted over the heads of twenty-seven of his senior officers

NORWEGIANS PURCHASE MANY AMERICAN SHIPS

(Special to The Daily News.)

New York, October 23.—Four prominent Norwegian bankers have arrived here to arrange credits and complete arrangements for the purchase of vessels valued at \$200,000,000. Several steamers which have just been built in San Francisco will be taken over by Norway. Norway is determined to seize the present great opportunity to increase her hold on the world's carrying trade and it is reported that she will even turn her attention to an effort to compete with the Japanese in the trans-Pacific trade.

to take that soft snap, which nets him four thousand dollars a year. Promotion has been rapid. He is now a colonel, although he has never heard a shot fired in anger. The secret is political pull. His father, once a Conservative senator, is dead now, but he still seems to be strong with the party.

Reason No. 3—The rank and file are disgusted with the war scandals, the shell profiteers, the Yankee fuse contracts, Sir Sam's precious friend, Colonel John Wesley Allison, paper shoes, shoddy uniforms, the Ross Rifle, spavined chargers, grafting members of Parliament, the procrustinating Davidson Commission and other matters too numerous to mention. What the average citizen of eligible age asks is, why should I go overseas to bleed for my country and let these brigands stay at home and bleed it?

Reason No. 4—There are too many shining examples of safety first in the higher ranks of the militia to encourage others to risk their lives. Too many church parade heroes being made brigades
