Water Notice

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Skeena Division of Skeena District.

(a) The name, address and occupation of the applicant is George Young, Victoria, B.C. (If for mining purposes) Free Miner's Certificate No.

(b) The name of the lake, stream or spring (if unnamed, the description is) Ain Lake and Ain River.

(c) The point of diversion at or near Ain Lake.

(d) The quantity of water applied for (in cubic feet per second) 1000.

(e) The character of the proposed works, dam, flume, pipe-line, power engines, plant, etc.

(f) The premises on which the water is to be used (describe same) at or near mouth of Ain River, Masset Inlet.

(g) The purposes for which the water is to be used is for power development and mill operations.

(h) If for irrigation, describe the land to be irrigated, giving acreage.

(i) If the water is to be used for power or mining purposes, describe the place where the water is to be returned to some natural channel, and the difference in altitude between the point of diversion and point of return.

(j) Area of Crown land intended to be occupied by the proposed works, ...

(k) This notice was posted on the 26th day of April, 1911, and application will be made to the Commissioner on the 20th day of May, 1911.

(l) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet. None.

GEORGE YOUNG,
P.O. Box 285, Prince Rupert, B.C.
NOTE—One cubic foot per second is equivalent to 35.71 miner's inches.

Double Weekly Service

WILL SHIP ORE SOON
Stewart M and D Property Makes Progress
NEW TUNNEL SCHEME
By Driving a Thousand Foot Boring Great Saving Will be Effected. Ore Can be Dropped Right on Railway.

Before long there will be shipments of ore from the property of the Stewart Mining and Development Company at Stewart. The time is drawing near when this property will have to undergo the change from a prospect under development to a shipping mine, the bodies of ore found in the No 4 ledge, being now considered sufficient to warrant this. The most feasible plan for working the property, as a mine, will be by a tunnel from the Bear River side. This will obviate the necessity of constructing an areal tramway, and will give approximately 700 feet depth vertically below the present workings, and drain the mine for practically all time. The mouth of the tunnel will only be a short distance from the line of the Canadian North-Eastern railway, which will be in operation before the end of June. At a rough estimate the tunnel will be about 1,000 feet in length, and with a spur from the main line to the mouth of the tunnel, it will facilitate the handling of ore at the very lowest possible cost.

This plan was reported at the general meeting of the company held the other day. In working the mine the proposed tunnel will offer a cheap way of handling the ore as the tunnel will be driven with a slight raise for drainage and an up chute at a point beneath the present workings will be driven for ventilation. Thus the ore can be stopped, and the expense of hoisting machinery saved. It is expected this tunnel will cost in the neighborhood of \$20,000. The directors are to have a thorough report on the mine made by an eminent mining engineer, and a survey of the tunnel made shortly, and as soon as this is done work on the proposed tunnel will commence.
