

A Distinctive Reason

What is the chief reason for the superiority of Dr. Price's Cream Baking Powder?

There are several good reasons, but there is one which distinguishes Dr. Price's from other baking powders.

This reason, which every woman should know, is that Dr. Price's Baking Powder is made from Cream of Tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in cheaper baking powders.

ATTENTION VOTERS

Persons who hold lots under agreements, or assignment of agreement must make a declaration giving particulars of their title, before the last day of November. Any person neglecting to take such declaration will not be entered on the voters' list.

It is impossible for me to ascertain the names of agreement holders unless they come in personally.

It will greatly facilitate matters if persons wishing to make declaration bring their agreements, so that I may inspect them and thus prevent errors.

Reference to old voters' lists satisfies me that only a small proportion of agreement holders have registered in past years. This, I believe, has happened because people wrongly think their names will be inserted without any action on their part. I therefore call special attention to the necessity of agreement holders making declarations.

FRED PETERS, City Clerk.

THOUSANDS OF TONS OF RUBBER REQUIRED

It is estimated that the crude rubber used by manufacturers of various rubber products will amount to 202,000 tons this year, of which the United States will use one-half. This appears strange when it is considered that while the States will use half Great Britain practically controls the entire rubber growth of the world. All this was brought about by the plantations established in Ceylon, Sumatra, the Malay States and Java under the direction and financing of the British government.

It is fortunate for Canadians, and for the world, that it is Britain, rather than a private corporation, that controls this immense output, for in the face of big war orders and the upward trend of prices on all staple products, England has gradually lowered the price of crude rubber from \$3 a pound in 1910 and \$1.25 just before the war, to 67 cents a pound today.

This means one thing—the substitution of rubber in every instance possible for the leather that is rapidly reaching a price that puts it within the reach of only the affluent. In fact there is a strong movement on foot now to use rubber to a larger extent in footwear this winter than ever before. Fabrics and chemicals as well as the labor used in making rubbers and overshoes have increased slightly, but the lowering of the rubber price has kept things pretty well balanced. This movement has been fostered by the fact that nothing is so ruinous to leather as water—particularly snow water—and the expensive leather must be protected if one is to have any shoes to wear.

TO THE CITIZENS OF PRINCE RUPERT, B. C.

A public meeting is called in the Carpenters' Hall Friday, November 24, at 8 p. m., for the purpose of completing a Platform and the organization of a Prince Rupert Municipal Movement. The Trades and Labor Council requests the privilege of placing four Aldermanic candidates on the ticket. Thus giving to the citizens at large the opportunity of selecting the Mayoralty candidate and the remaining four Aldermanic candidates, also the School Trustees. So, citizens, here is your chance to join the "get-together movement" and make things count.
Prince Rupert Trades and Labor Council, November 21st, 1916.
