

## ZOUAVES AND SERBIANS TAKE VITAL POINT

### GERMANS CLAIMING VICTORY FROM ALT TO DANUBE—ACTIVITY AROUND YPRES

#### SERBIANS AND ZOUAVES HAVE CARRIED HILL

Important Point Gained on the Macedonian Front—Selected Bulgarian Troops are Defeated.

(Special to The Daily News.)  
Saloniki, Nov. 28.—The Zouaves, from North Africa, who form part of the French army on the Macedonian front, as well as in the western theatre of war, co-operating with the Serbian troops, have successfully carried Hill 1050 against the Bulgarians, Turks and Germans.

The Allied forces in this movement defeated a specially selected battalion of chasseurs of the guard, who had orders to hold the hill regardless of cost.

As evidence of the importance placed upon this position by the enemy, the Bulgarians made several counter-attacks with the object of recapturing it. They charged in the face of the guns of the Zouaves and Serbians, without considering the enormous casualties involved, and were repelled on each occasion.

#### Big Fighting Coming.

London, Nov. 28.—Violent artillery duels foreshadow decisive infantry attacks along the whole front north of Monastir.

Berlin claims that the Entente Allies have suffered a severe defeat in this region.

The tug was sent to Davy Jones' Locker. The picture shows the submarine being towed back into harbor.

#### IMPROVEMENTS IN TELEPHONE WIRING

Superintendent Kennedy recommended to the council last night that instead of repairing the telephone lines where they have suffered most seriously as a result of last Monday's storm in a way which at the best, would be only temporary, that use be made of the cable on hand and that part of the system be put on a more permanent basis.

The mayor said that, since the storm, Mr. Kennedy had been too busy to prepare a detailed report. Ald. Montgomery, seconded by Ald. Dybbavn, moved that the superintendent's recommendation be adopted.

Mr. Kennedy explained that his idea was to cover the sections of the city which are in worst condition. West of McBride and down to Ninth and also between Second and Third and First and Second, the leads were very bad. In some places where he had cut the wire away he found it was rusted so badly that they could not make joints. Storms of the past had affected them so badly that new wiring was necessary. Mr. Kennedy produced a plan of the city, showing just where he proposed putting in permanent new wiring. He also proposed putting in a lead to take care of the Cold Storage Company, the present equipment being in exceedingly bad shape. The new lead put in some time ago was in good condition, but at other places the old had been hung on trees and no effort made to make a satisfactory job of it.

Ald. Casey asked if the superintendent could give an idea of the cost and time necessary to make the improvements.

Mr. Kennedy said that they had the cable on hand and that the only cost would be the labor. He did not estimate that it would take a great deal longer time than the temporary repairing of the wires. The report was carried unanimously.

#### DESERTERS PARDONED

(Special to The Daily News.)

Ottawa, Nov. 28.—The Duke of Devonshire has signed an order-in-council pardoning all deserters from the Canadian Expeditionary Forces who again report for duty by December 15th.

(Special to The Daily News.)

Halifax, Nov. 28.—The French steamer Pro Patria is ashore near Flat Point. Tugs are proceeding to her assistance.

#### BRITISH AIRMEN AND ARTILLERY JOINED FORCES

Important Enemy Positions are Bombarded—Two Planes Failed to Return—Zeppelin Raid on England.

(Special to The Daily News.)

London, Nov. 28.—British artillery bombarded the enemy trenches in the Ypres district yesterday. The batteries were assisted by British aeroplanes which co-operated successfully in the attack despite the inclement weather conditions of the past few days continued throughout the engagement.

Many important enemy military points were successfully shelled. Two of the aeroplanes failed to return to their base.

Berlin reports that the Allied artillery preparations in the regions of Armentieres and Arras indicate that a fresh offensive is being contemplated at these points.

#### Zeppelin Raid.

Hostile airships last night crossed the northeastern coast of England and dropped bombs at several places.

#### Italian Front.

Rome, Nov. 28.—In the Carso zone, in the Austro-Italian theatre of war, the Austrians are vigorously shelling the Italian positions.

On the Russian front, the Russians are engaging the enemy at several points.

#### PROTEST AGAINST FOSTER'S LANGUAGE

At the city council last night, the following resolution, moved by Ald. Dybbavn and seconded by Ald. Casey, was carried unanimously:—"Resolved, that this council place on record a protest against the language used by the Hon. Sir George E. Foster, in a speech delivered by him at the Empire Club, Toronto, and which was reported in the Monetary Times of 17th November.

The statements made are not true, were entirely uncalled for, and, being made by so prominent a man, are liable to be credited by strangers and are calculated to injure the city."

Copies of the resolution will be sent to the government, to Sir George E. Foster and to the Monetary Times.

#### CROW'S NEST COAL MINERS ARE ON STRIKE

Preliminary Conference at Ottawa But no Results—Lethbridge Miners Supply Schools and Hospitals.

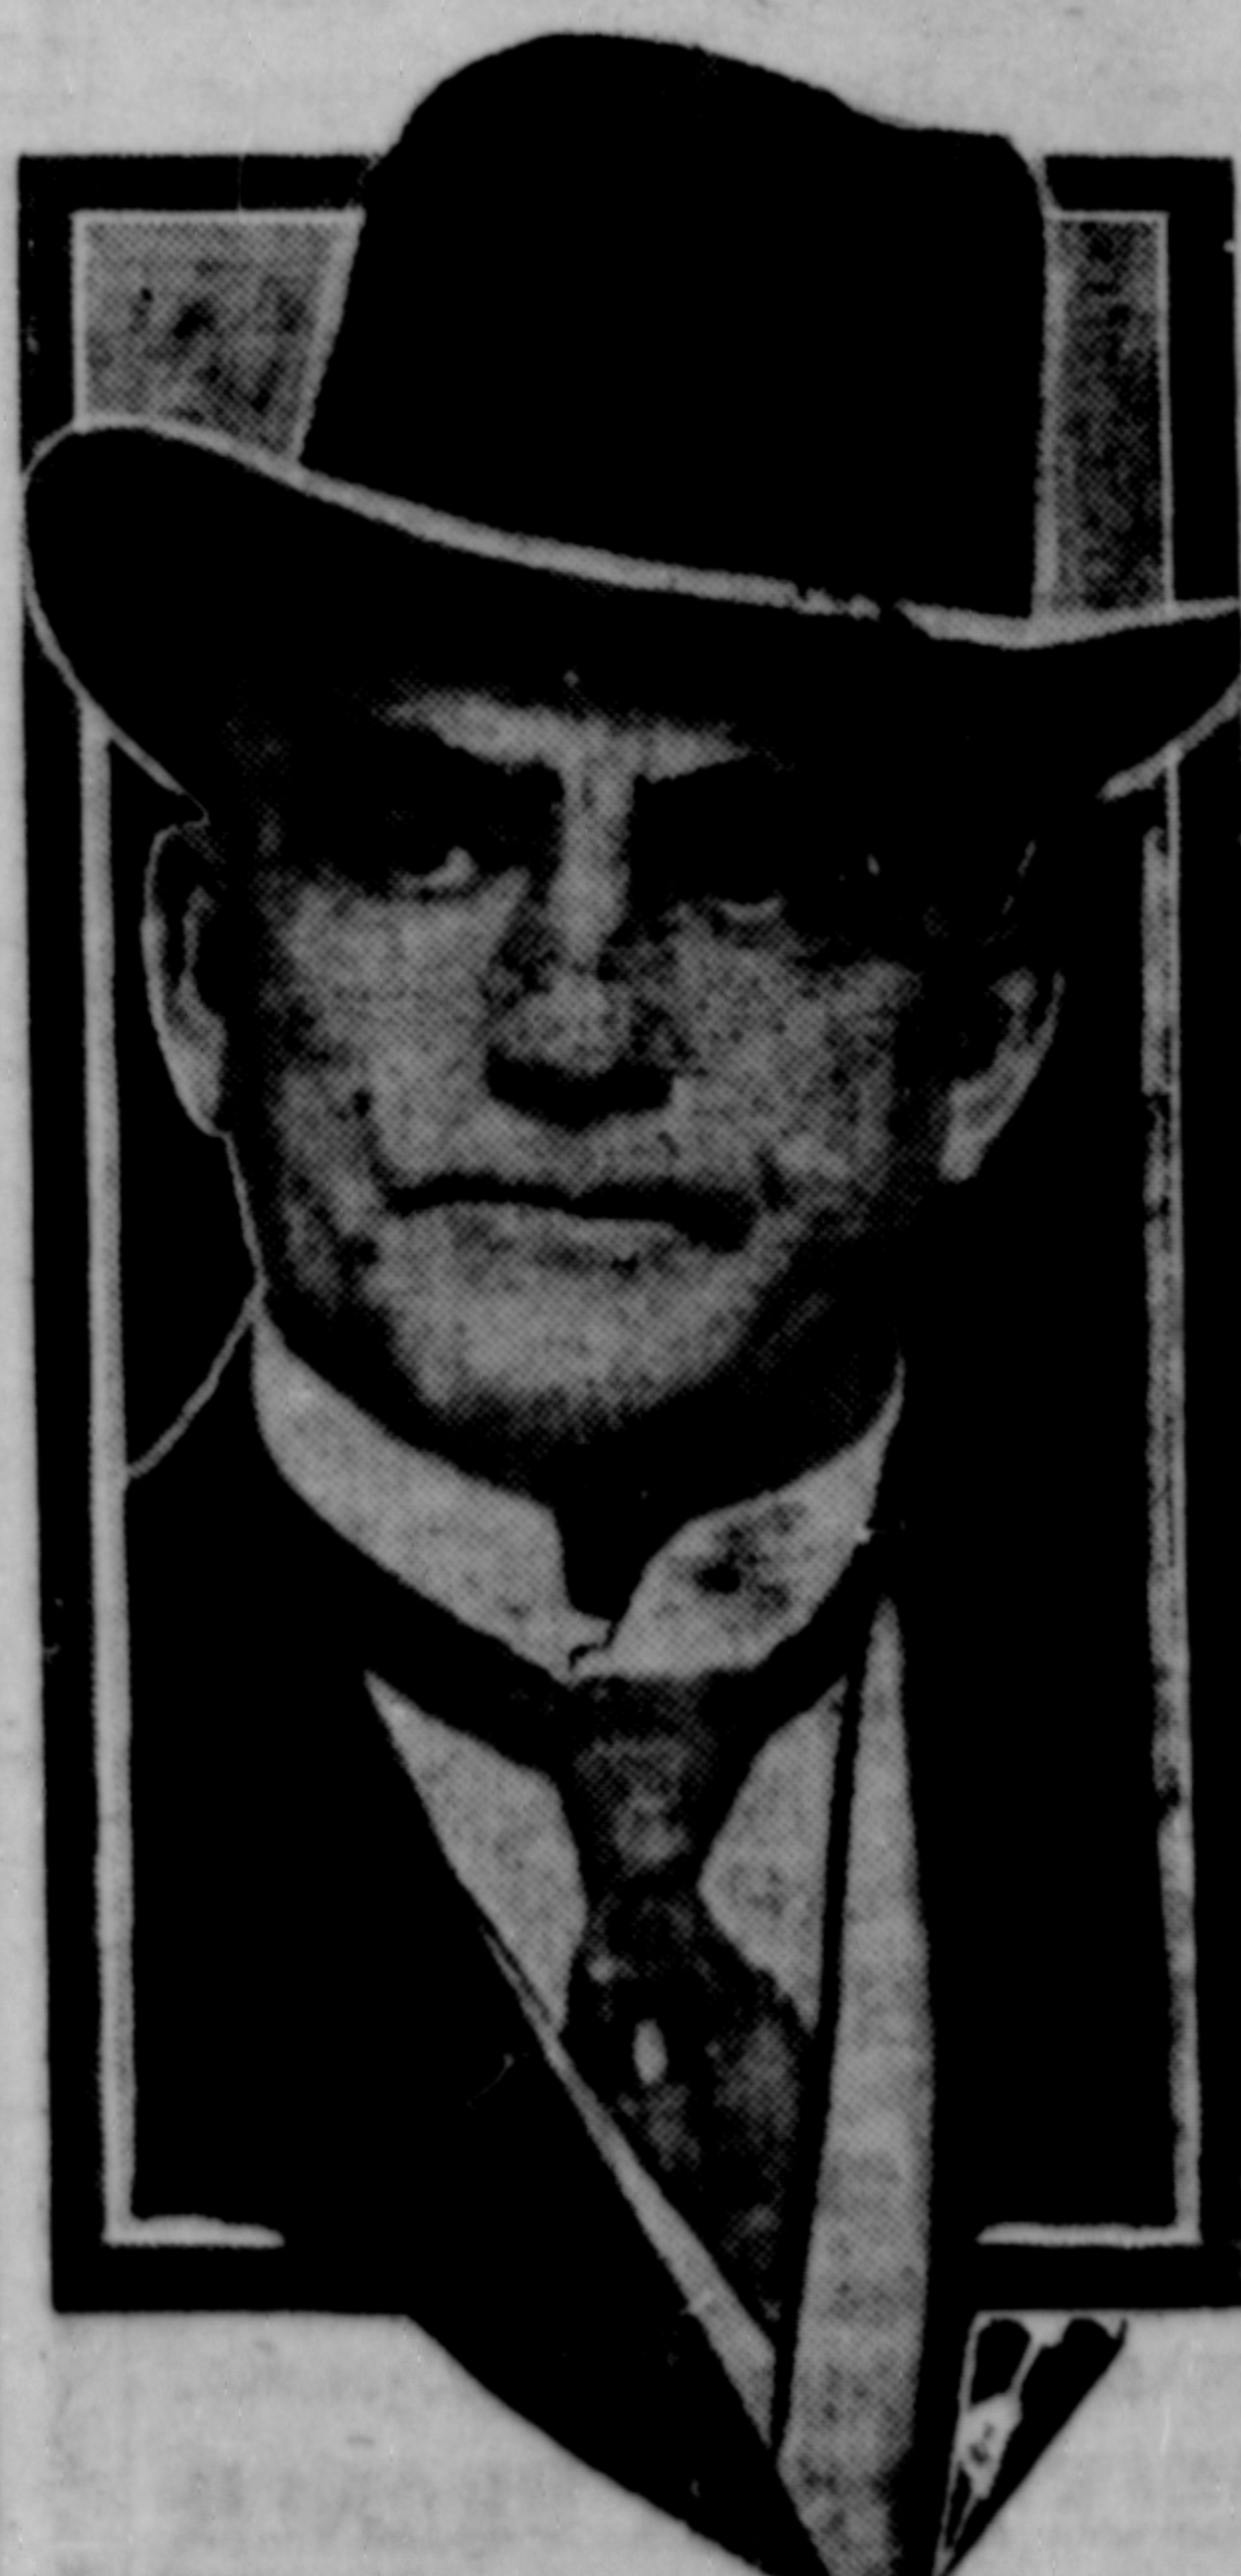

(Special to The Daily News.)

Fernie, Nov. 28.—All the coal miners in the Crow's Nest Pass are idle as a result of the strike which began yesterday morning because of the refusal of the mine owners to grant the requested war bonus. Twenty-five hundred miners are thrown out of work.

A preliminary conference is being held at Ottawa between Hon. T. W. Crothers, Minister of Labor, and Hon. Robert Rogers, Minister of Public Works, and the representatives of the Alberta and British Columbia Miners' Unions. So far, the conference has brought about no definite results.

#### Coal For Schools.

Calgary, Nov. 28.—Four thousand coal miners in southern Alberta are now on strike. A few miners are working in the mines at Lethbridge for the purpose of getting out sufficient coal to supply the hospitals and the public schools throughout the cold weather.

#### TAMPERING WITH LIGHTING SYSTEM

Superintendent Kennedy reported to the city council last evening that the trouble experienced with the lighting of the city about ten days ago had again become apparent. He had gone over every foot of the system and found that everything connected with it was in perfect order. He had reason to believe that on several occasions the wires had been tampered with by parties not authorized to do so. He hesitated to think that anyone in the city would do so, still it was evident that there was something happening which should not. They had located the trouble in the section east of Hays Creek. The lines were all in good condition and there was no apparent reason why this trouble should exist.

Ald. Casey asked if this was the reason for the flickering of the lights.

Mr. Kennedy said it was. He said that he could not find any reason except that there was tampering. The lines answered a test clearly and then suddenly there was a flicker. It particularly affected the street lighting.

In reply to Ald. Montgomery, Mr. Kennedy said that they had succeeded in locating the trouble in the section mentioned.

The mayor said that he was loth to believe that anyone would do such a thing. He understood that it could be very simply done.

Ald. Montgomery said that it was a serious matter and moved that the mayor, the superintendent of utilities and the city solicitor be given power to act in the matter. This was seconded by Ald. McRae.

Ald. Casey asked if the tampering had had anything to do with the burning out of the fire alarm system.

Mr. Kennedy replied that this was entirely due to the storm and explained how the weight of snow had brought one wire in contact with another causing the whole system to go out of order. In speaking of the clearing up of the effects of the storm, Mr. Kennedy said that they were handling the live wires first, in order that there be no danger of accident, and then they would get the telephones connected up. Some of the alarm boxes required new parts and he thought they should get the phones in order first.

Ald. McClymont said that he had been spoken to about the street lighting. He wanted to know if there was a lack of help, or if they were awaiting supplies, or

#### BERLIN CLAIMS VICTORY FROM ALT TO DANUBE

Huge Territory Captured by the Teutonic Armies—Russians Charge Germans With Horrible Atrocities.

(Special to The Daily News.)

Berlin, Nov. 28.—The entire line, from the Alt River, flowing out of the Transylvania Alps in the northern part of Rumania, to the River Danube, which skirts the southern border of this country, is now in the hands of the Teutonic troops.

#### German Atrocities.

Rome, Nov. 28.—Despatches received from Petrograd declare that the Germans in the west Wallachian region, on the Transylvanian front, have been guilty of the most horrible atrocities.

#### Refused Safe Conduct.

London, Nov. 28.—The Allies have refused safe conduct across the Atlantic to the new Austrian Ambassador to Washington. He must travel to the United States at his own risk. It is anticipated in Vienna that America will protest.

#### POWER APPLICATION

At the city council last night, Ald. Casey drew attention to a notice in The Journal, filed by G. R. Naden & Co., with J. H. Pillsbury as agent. He moved that the city solicitor enquire into the matter and find out the intentions of the company. If there was to be any conflict between it and the publicly owned utility of this city the city solicitor should be instructed to take measures to have the application refused. This carried unanimously.

#### MINING CASE

Mr. Justice Morrison yesterday reserved judgment in the case of Harvey v. Bretzins. The plaintiff claims \$2,500 commission on the sale of the Debenture Group of mineral claims. W. E. Williams appeared for the plaintiff and L. W. Patmore for the defendant. The defence was that the plaintiff had nothing to do with the final deal and that the proposal he was working on fell through.
