Restoration of Belgium, Serbia and Montenegro Demanded With Guarantee of a Lasting Peace.

(Special to The Daily News.)
Washington, Jan. 12.—The Entente Powers, in their answer to President Wilson's peace overtures, demand the restoration of Belgium, Serbia and Montenegro with the payment of indemnities which are justly theirs; the evacuation of the invaded territories in France, Russia and Rumania, with ample reparation for the damage done by the invading Teutonic armies; the reorganization of Europe with a permanent peace guaranteed by a stable settlement based upon the principles of liberty for the small nations; the liberation of the Italians, Slavs and Rumanians from foreign domination; the enfranchisement of the populations which have been subject to the bloody tyranny of the Turks and the expulsion of the Ottoman empire from Europe.

Greece Accepts Terms.
The Greek government has finally accepted the terms of the British ultimatum.

JACK KELLY SENDS MORE RELICS OF WAR

Mrs. J. H. Kelly has received several more curios from the battlefields of Flanders, made by "Jack" in his spare time. One is an inkstand the base of which is a piece of oak, the ink bottle a time-fuse casing and the cap a shell-nose. On either side of the ink bottle are badges of Canadian regiments, one being that of the 48th. The back is the eagle from the front of a German helmet, which has evidently been the property of a Prussian Guard. Besides the usual "Mit Gott für König und Vaterland," it bears the words Peninsula and Waterloo in memory of the work of the Prussian guards in the Peninsular war and in helping Wellington to defeat Napoleon. The flanks are supported by brass bullet casings and the whole is a remarkable piece of work in metal.

"Jack" has also sent an ash-tray, the base of which is made from copper driving bands, the match holder being part of a hand bomb. Accompanying these is a paper knife, the handle of which is a bullet casing, surmounted by the button of the 48th Battalion.

Harry McLeod has gone south on matters connected with his department.

WAR MATERIAL DESTROYED IN FOUNDRY FIRE

Explosion Shocks Felt Miles Away When Munitions Blow up in Blaze at Canada Car Co's. Big Plant.

(Special to The Daily News.)
New York, Jan. 12.—The plant of the Canada Car and Foundry Company, near Kingsland, N. J., was completely destroyed by fire yesterday evening. Repeated explosions, which lasted for three hours continuously, wrecked the building and destroyed many millions of dollars worth of war supplies. A half million three-inch shells, completed and ready for shipment to the Russian government, exploded in the fire. It is believed that the seventeen hundred employees of the company are safe and that not a single life was lost. A spark in the gasoline room is supposed to have been the cause of the outbreak. The shock of the explosion was distinctly felt in New York City.

COUNCIL ENDORSED

The electors yesterday passed judgment upon the work of Mayor McCaffery and his council of 1916. The verdict was exactly as was expected. The mayor was returned by a large majority and he has reason to feel proud that he is the first mayor of Prince Rupert to be elected for a second successive term, in a contest. His opponent had a hard row to hoe and is to be congratulated upon the fact that he put up a clean fight, free from all personalities. Mr. McCutcheon is quite entitled to look upon the result, not as a personal defeat, but as the utter rout of the disgruntled parties who pressed him into the contest.

The only change in the council is the substitution of T. McMeekin for W. G. Barrie. Mr. McMeekin is to be congratulated upon his election. Possessed of sound business ability and a fund of common sense, Alderman McMeekin will be an acquisition to the council.

HARRY THAW TRIES TO COMMIT SUICIDE

(Special to The Daily News.)
New York, Jan. 12.—Harry K. Thaw has cut his throat. He was found by the police in Philadelphia in an unconscious condition, with self-inflicted wounds in his throat. He is expected to recover. Worry over the threat of his mother to turn him over to the New York police is believed to have been the reason for the rash act.

BASE HOSPITAL, "SOMEWHERE IN FRANCE."—This photograph shows a base hospital in France of the type in which most of the wounded Canadians are treated before being sent to England. On the litters in the courtyard are lying German and French wounded, both badly in need of medical aid and some even more in need of the services of a minister of their faith.

"JIM" NEVILLE HEARS FROM TWO LOCAL BOYS

Sergeant James Neville has received cards from John Tait and Walter Flewin, both of whom were with "Jim" somewhere in Flanders. "Jock" Tait is now with a hand grenade company in his old battalion, after having recovered from wounds sustained in the first great drive on the Somme. Walter Flewin, who was wounded at Festubert, where so many of the British Columbia boys were knocked out, is now as fit as ever.

CITIZENS OF PRINCE RUPERT:

Ladies and Gentlemen:—I thank you sincerely for the honor you have conferred upon me in again electing me as chief magistrate of the city. I take it as a personal compliment that I have created a record in being the first mayor of Prince Rupert to be elected for a second successive term of office, in a contest.

The greatest satisfaction to me, in the result, is that you have, by your votes, signified your approval of the work of the council for the last year, and it is my intention to devote all the energy I possess to the furtherance of the interests of this city and to the upbuilding of a business community here which will lay the foundation for the big city which is bound to develop in the years to come. Again thanking you,
Yours faithfully,
M. P. McCAFFERY.

DISGRUNTLED ELEMENT COMPLETELY ROUTED

Interviewed by The Daily News after the result of the mayoralty contest was made known last evening, Mayor McCaffery expressed great satisfaction in the fact that the contest this year had been so clean and free from all personalities. "My opponent set an example to his predecessor in the gentlemanly manner in which he conducted his campaign," said the mayor, "and I look upon the result, not only as a thorough endorsement of my work of the past year, but as the utter defeat of the disgruntled element in the city which induced Mr. McCutcheon to oppose me. One of the most pleasing features of the election has been the entire absence of party politics, and I feel satisfied that politics has at last been completely ousted from municipal affairs in this city."

Immediately after the result was declared, Mayor McCaffery called upon Mr. McCutcheon and congratulated him upon the clean fight he had made and "Doc" offered his heartiest congratulations, showing that he took his defeat, as he conducted his campaign, like a man.

Mr. and Mrs. L. W. Patmore were amongst the south-going passengers last evening.

Ottawa, Jan. 12.—The conference of the Federal and Provincial representatives in regard to land settlement and other problems affecting our returned soldiers concluded yesterday. The provincial premiers and other attendants at the conference were the guests at a dinner given by His Excellency the Duke of Devonshire last evening.

Prohibition.
There is a general impression prevailing in official circles that it is not the intention of the government to introduce legislation in regard to Dominion-wide prohibition.

Premier Borden has never extended much encouragement to the delegations requesting the curtailment of the manufacture and sale of liquor during the period of the war.

Menace to Shipping Greater Than at Any Other Period—Cruiser Cornwallis Sunk—British Success.

(Special to The Daily News.)
London, Jan. 12.—Sir John Jellicoe, First Sea Lord of the Admiralty, has announced that the German submarine menace to merchant shipping is greater now than at any period since the outbreak of the war and requires all the energy of the Admiralty to combat it.

The British armored auxiliary cruiser Cornwallis has been sunk by a German submarine seaplane carrier.
