J. R. EASTON REPLIES TO SIR GEO. E. FOSTER

James R. Easton, of Spitzer, Rorick & Company, Toledo, Ohio, and well known in Prince Rupert in connection with the purchase of this city's bonds, is now in Vancouver looking into the financial situation in South Vancouver. Mr. Easton states that his firm last year placed from ten to twelve million dollars' worth of bonds for Canadian clients and that they have the most absolute confidence in British Columbia.

"We have found Canadian municipalities an absolutely safe investment," said Mr. Easton, "and our continued operations in British Columbia show that we have every faith in this province despite its temporary setback and the depression following the over-speculation you have been indulging in."

Mr. Easton says that his house pays little attention to politicians and their prognostications around election time or to outside knocking and criticism, but sends its own men into the field to investigate before opening up negotiations for bond issues. "All its information is secured first hand and by trained men, who are capable of making an intelligent study of conditions. It was as a result of this kind of investigation that the Prince Rupert loan was placed in face of much adverse criticism to the city. "We had a man in Prince Rupert for weeks, going into the situation thoroughly and as a result have faith in the city. One of your big public men spent a day there recently and then went back east and gave the impression that Prince Rupert was 'all in.' The kind of investigation he could make in a few hours' stay there was worth nothing at all."

Frank Dowling, Senr., has received a unique picture of young Frank, who is in England recovering from wounds and doing nicely, in the shape of a movograph. Bathe Internally

Over 50,000 People Are Now Doing So.

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be, and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor. Recently, however, the startling news which has been covering this country, that great surgeons and specialists have been operating on the Lower Intestine for the most chronic and serious diseases, has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes us listless, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.
