# Depend on us

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks-they have had no chance to raise moreand the ruthless Germans refuse to supply them!

Backed by the

# Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread-but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month-every month-all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity for the sake of our own self-respect tet us give all tre can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lamp one to Local or Provincial Committees, or to the

Central Executive Committee, 50 St. Peter St., Montreal \$2.50 Feeds A Belgian Family A Month.

After the bath with BABY'S OWN SOAP the skin is smooth, comfortable, and exhales the aroma of freshly cut flowers.

Freedom from skin troubles, explains in some measure the refreshing sleep which "Baby's Own Soap" babies enjoy. Especially for nursery use insist on "Baby's Own".

4 mm. ..... The Poor Man's University ONES knows more about motor cars than any other man "He has obtained his

> ments, and the catalogues and booklets circulated through them." "All I know about photography," declared a wellknown amateur, "I have learned from the men who advertise cameras, plates, papers and films."

knowledge chiefly from motor car advertise-

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

Advertisements have stimulated our intelligence, added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University.
