

THE CHIEF CHARM OF LOVELY WOMAN

Soft, Clear, Smooth Skin Comes With The Use Of "FRUIT-A-LIVES".

NORAH WATSON
86 Drayton Ave., Toronto,
Nov. 10th, 1915.

A beautiful complexion is a handsome woman's chief glory and the envy of her less fortunate rivals. Yet a soft, clear skin—glowing with health—is only the natural result of pure blood.

"I was troubled for a considerable time with a very unpleasant, disfiguring Rash, which covered my face and for which I used applications and remedies without relief. After using 'Fruit-a-lives' for one week, the rash is completely gone. I am deeply thankful for the relief and in the future, I will not be without 'Fruit-a-lives'."

WHY GERMANY WANTED WAR

FROM FAR AND NEAR

The city of Moscow, in Russia, has been closed to refugees. The city is crowded with people from Rumania, Odessa and points in southern Russia.

Wilbur Crafts, of the International Farm Bureau in Washington, declares that a national railroad strike in the United States would mean starvation for thousands of babies.

Berlin claims that there is a lack of discipline in the Rumanian army. Perhaps on the retreat from Braila the Germans will not worry very much over this weakness on the part of their enemies.

Postcards made of fish skin are the latest novelty. The skin is stretched, pressed, dried and shellaced. The inner side is smooth and of a pale grey color, while the outside shows the texture of the skin plainly.

"The Klondyke Clan," a remarkably vivid story of the days of the Yukon rush, by Rev. S.

Hall Young, has just been published. It is dedicated to the Arctic Brotherhood.

A Seattle halibut steamer which recently arrived in the south from Alaska, had a quantity of "hooch" stowed inside the fish. It is stated that forty cases of whiskey were taken aboard in Alaska but all the officers were able to find in Seattle was eighteen bottles.

A French soldier who took part in the battle of the Marne has been asleep for the past twenty-seven months. His eyelids are closed, respiration is regular, but the pulse is rapid. Doctors who have examined him say that it is a case of hysterical lethargy and that the patient will eventually waken and resume his normal occupation.

REAL LILLIPIUTIANS HAVE BEEN DISCOVERED

Chicago, Jan. 17.—Gulliver discovered the Lilliputians, but he failed to learn that the tiniest race extant were firm believers in woman suffrage and the cleanest people on earth.

Dr. Edward A. Salisbury, in company with Mrs. Mary Roberts Reinhart and Rex Beach, well-known writers, has just completed a trip of exploration through the Islands of the western coast of South America and made a 10,000-mile trip in his 90-foot gasoline launch.

The scientist-explorer, while in Chicago told a story about the San Blas Indians, a pygmy race of which little is known, because of their exclusive habits. They inhabit an island near Colon. There are only 10,000 of the small race in existence.

"These Indians are a serious-minded little people, who live a communistic life, in which the woman plays as important a part as the man," said he. "They are the Lilliputians of fact. All matters of importance are settled by the whole tribe as a council, in which the women vote and talk. If a youth decided to marry he presents his chosen bride to the council and if she is approved he makes his demands known. These Indians never marry out of the tribe. They are wary of whites because they have often been cheated."

NAVIGABLE WATERS PROTECTION ACT R. S. O. Chapter 115.

Hume B. Babington and Norman B. Brodhurst of the City of Prince Rupert, in the Province of British Columbia, hereby give notice that they have under Section 7 of the said act deposited with the Minister of Public Works at Ottawa and in the office of the District Registrar of Titles at the Land Registry Office at the City of Prince Rupert aforesaid a description of the site and the plans of a wharf proposed to be built in Henslung Bay, Langara Island, in front of Lots 999 and 998, Queen Charlotte Island Land District, Province of British Columbia.

The Poor Man's University

"JONES knows more about motor cars than any other man I know," said a man to his friend. "He has obtained his knowledge chiefly from motor car advertisements, and the catalogues and booklets circulated through them."

"All I know about photography," declared a well-known amateur, "I have learned from the men who advertise cameras, plates, papers and films."

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

Advertisements have stimulated our intelligence, added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
