

NOTED MUSICIAN OF MONTREAL

Advices The Use Of "FRUIT-A-TIVES", The Famous Fruit Medicine.

MR. ROSENBERG

April 20th, 1915.

"In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as 'Fruit-a-tives'. I was suffering from these complaints for five years, and my sedentary occupation, Music, brought about a kind of Intestinal Paralysis—with nasty Headaches, belching gas, drowsiness after eating, and Pain in the Back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives', and now for six months I have been entirely well. I advise any one who suffers from that horrible trouble—Chronic Constipation with the resultant indigestion, to try 'Fruit-a-tives', and you will be agreeably surprised at the great benefit you will receive". FRENCH STEAMSHIP SANK A SUBMARINE

In a forty-minute battle between the French liner Guyanne and a German submarine off the coast of France on January 22nd, the submarine was sunk, according to the officers of the freighter, which as arrived in New York from Bordeaux. The Guyanne was one day out from port. At 1:30 p. m. the U boat was sighted some distance to port and apparently endeavoring to cross the steamer's bow to stop her. The submarine fired a shot which fell short and the Guyanne then turned sharply to starboard, so that her big 65 millimetre gun mounted at the stern could be trained on the approaching craft. The submarine fired a second shot, which fell considerably short and then a third which struck the water close by the freighter. Meantime, the Guyanne's gunner had sent one shot which failed to hit, but struck very near its mark. A second shot from the Guyanne hit the U boat squarely and the underwater craft was seen to collapse. During the next thirty minutes the submarine was seen to be struggling for existence. No one appeared on deck and no further attempt to shell the freighter was made. At the end of the half hour, the submarine disappeared, not with the usual gradual motion, but suddenly. The freighter's officers say that they have no doubt that the submarine was lost.

A NEW DEVICE

The Donaldson liner Lakonia arrived in Baltimore this week provided with a new smoke device of the British Admiralty that render ships immune from submarine attack. The ship also carried a 3-inch gun mounted astern and several trained gunners to man it. According to one of the gunners, who talked to a representative of the Associated Press, the new device, perfected by British chemists and scientists, can generate enough smoke in several minutes to mask a vessel from the enemy's view for several hours.

A. B. SMITH has a dry goods store in a certain Canadian city. He does a good business, but wants to do more. He believes that Advertising in his local newspaper is the way to get more business. So he advertises—every now and then. This is where our friend Smith is wrong—in advertising every now and then. He should advertise regularly—as frequently as his local newspaper is published.

Smith says he wants to advertise regularly, but he can't always find the time to prepare advertisements, which is true, for he is his own buyer, sales-manager, director of store service, credit man and half-a-dozen other things.

What Smith should do is this: If he is located in one of the smaller cities, in which there are no advertising agencies giving a local copy service, and he has no one among his own staff qualified by instinct or experience to write the daily announcements, he should go to the publisher of the newspaper in which he means to advertise, requesting his help. In nine cases out of ten, the publisher, through his advertising manager, will be only too glad to give Smith the assistance desired.

If Smith is located in one of the larger cities he should secure the services of a recognized advertising agency which will take over the work of preparing his advertisements.

In this way Smith can be sure of having his advertisements prepared regularly and intelligently, with no more trouble to him than the supplying of the information required by the writer of the advertisements.

So Smith can do more business, and more business means a larger income for himself, to say nothing of other gains that go hand in hand with the doing of bigger business.

**This man Smith---do you know him?
Are YOU Smith?**

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.
If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

There is no alum in Dr. Price's Cream Baking Powder. The names of its ingredients, printed on the label of every can, show it to be made from Cream of Tartar, which comes from grapes.

No alum baking powder or food containing alum is permitted to be sold in many countries. To avoid alum read the label and use only baking powder made from cream of tartar.
