THEIR SMALL PROPORTION

In its campaign for the Patriotic Aid Fund a few days ago Montreal raised the large sum of \$4,316,563, easily leading the other cities of Canada in its subscription to the fund. In commenting on this splendid showing the Ottawa Citizen points out that the contributions of the munitions manufacturers amounted to only \$112,000 and comments accordingly. Our contemporary says:

"It has been remarked on several occasions, in the campaigns for funds for the benefit of the dependents of our soldiers, that as most of the great industries profiting by the war were located in Montreal or were financed from the metropolis the natural thing to expect was that the list of subscriptions from that city would exceed all others in the Dominion. The munition makers were not averse to this impression being widely circulated. Whether it was knowledge of this circumstance or merely a matter of better organization, we do not know, but the fact remains that in the recent collection the committee appointed an energetic team to interview the local munition makers and allied concerns benefiting by the war. This committee was known as the 'Munitions Team' and its report was confidently awaited by the general committee in the closing hours of the campaign when all were striving to place Montreal in the place of honor in the nation wide campaign. The following list was turned in:

Canadian Car Co.	\$10,000
Canadian Explosives	30,000
Canadian Steel Foundry	5,000
Canadian Vickers	5,000
Dominion Bridge Co.	8,000
Dominion Cartridge Co.	5,000
Dom. Copper Prod. Co.	5,000
Montreal Ammun. Co.	5,000
Montreal Locomotive	10,000
Steel Co. of Canada	12,000
Peter Lyall & Sons	15,000
Standard Steel Co.	1,000
International Mfg. Co.	1,000

The total of these subscriptions is \$112,000; the number of firms represented is thirteen. Taking out the subscription of

the Canadian Explosives Company, the total is \$82,000 for twelve firms, or a little over \$7,000 each.

"We do not know any more convincing argument for confiscation of war profits than figures like these. All these concerns have made hundreds of thousands out of the war. Many of them have made millions. The Montreal Ammunition Company, be it noted, subscribed \$5,000. This is the organization which was formed when the war broke out, was capitalized at \$300,000 and which at last report had cleared over three million dollars. It cheerfully subscribes \$5,000 for the families and dependents of the Canadian soldiers at the front! Many concerns apparently do not give any of their profits to the fund. There is no mention of Canada Foundry and Forgings, for example—a stock which bounded from obscurity and the non-dividend class overnight, with several million dollars worth of orders for shell forgings.

"If the government is not interested in the success of the Patriotic Fund or not concerned with the problem of looking after the dependents of our soldiers the right course for it to pursue would be to continue to ignore the attitude of the profiteers in the matter of voluntary giving a respectable portion of gains which, many are convinced, can only be justified by some such consecration. If, however, the administration is alive to the growing sentiment in the Dominion it will forthwith take steps to appropriate the larger part of the swollen profits of munition makers and other war time contractors."—Victoria Times.

NOTES AND COMMENTS

German successes in the first instance were due to superiority in heavy artillery and to an abundance of munitions. Now the allies, and particularly the British, are not lacking in these essentials. The boot is on the other foot, as the preliminary movement in the anticipated spring drive proves. Fritz does not ap-

preciate the "baptism of fire" he is undergoing.

The price of potatoes in British Columbia, a province of large area and sparse population, is more than three times the price of potatoes in Great Britain, a country of very limited area and congested population. Britain, too, is blockaded (according to the Hun idea of a blockade) and British Columbia is not. How is such a state of affairs to be accounted for?

The war situation has developed into an interesting test of two systems—between the people of an autocratic state who are not allowed to do their own thinking and who are called upon to make sacrifices without knowing why, and the people of a democracy who are asked to endure privation, the causes of which they thoroughly understand. The German food distribution system was largely a failure because nothing in the world can eradicate from the Prussian Junker mind the ingrained idea that might is right and that deceiving the proletariat is legitimate.

United States newspapers claim there are fifty thousand Americans already fighting in the trenches. That it is quite a goodly company, and no doubt it is composed of noble fighting men who did not wait for the commission of an "overt act" before ranging themselves on the side of justice, honor, freedom and liberty.

It is now clear that whatever sympathy there was in the United States for Germany at any time since the war began was "made in Germany," and it cost the taxpayers of Germany a fairly high figure in marks. Von Bernstorff sprinkled money like water amongst his agents.
