MORETON FREWEN WANTS
A FISH MONOPOLY

The following is an excerpt from a recent issue of the "Cold Storage and Produce Review." Mr. Moreton Frewen is well known in this city, and his name has been mentioned in connection with the clearing of the land immediately across the harbor.

Mr. Moreton Frewen, writing from Sussex to the London Daily Telegraph, confesses to be one of those who see in cold storage salvation from food shortage, and he emphasizes this also with regard to fish supply. The situation, he says, points to the necessity of cold storage plants in every town of 10,000 souls. He touches upon Canada's vast fishery resources, and instances that at the terminal port of Prince Rupert the receipts of salmon for the first 20 days of September last were over 5,000 tons and of halibut 1,567 tons, valued at the local cold stores at \$6,950. He adds: "A very shapely 'spring' salmon, weighing 4 lbs., was forwarded from Rupert by Mr. Peter Wallace to Messrs. Spiers and Pond, and was on exhibition in their Ludgate Hill establishment. These fish, were freights at all normal, can be delivered, iced, not frozen, for 7d. a lb. in London, and, although they do not compare in quality with our own Salmo salar, are still an excellent food fish."

Many may not agree with Mr. Frewen's dictum that the nationalization of the Empire's fisheries is desirable. He argues that the daily receipts of fish at Prince Rupert, the central port for the British Columbia fisheries, is already some 350 tons, chiefly halibut and salmon, and if the State would offer to pay present prices, namely 4d. per lb. for halibut and 5d. for salmon, and would acco-

gate to itself a monopoly, with these as the maximum prices, it would be easy with this advertisement of an unlimited cash demand, to secure a full trainload—a thousand tons daily—at that one port.

The correspondent states that he has ascertained that a rail and steamship rate of 1d. per lb. from Prince Rupert via Montreal to Liverpool, would be liberal, indeed generous. If through its agencies in every small town Great Britain distributed such fish supplies at a profit of 1d. per lb., it might in a short time secure a rent from its vast oceanic pasture of twenty to thirty millions a year on a consumption of 6 ozs. per day.

2,000,000
 Belgians
 Depend on us
 for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied flag are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local - Provincial Committee, or to the
