LATEST HOSPITAL DEVICES USED IN THE ARMY

This is one of the new stretcher bearer transporters, invented
by Thomas Crawford, of Bristol, England. By means of this device
a nurse can now look after the wounded men, once they have been
carried a certain distance back of the firing line. As the stretcher
transporters hold from two to four stretchers, from four to eight
stretcher bearers can be relieved of a good part of their carrying
duty just back of the lines, and therefore, return and collect more
wounded men than would otherwise be possible. The machine is
so balanced that a nurse can wheel it loaded along the ordinary
wagon roads en route to the ordinary dressing stations.

IN THE LETTER BOX

The Editor, Daily News:

We feel we must answer your
correspondent of the 27th April,
as he appears to have failed in
interpreting the real aim and
spirit of our protest. His inter-
pretation that the general trend
of our letter was to protest
against a few hours' display of
the American flag is incorrect.

Our letter was a protest against
the indifference manifested in re-
gard to the flying of the Union
Jack over our public buildings.

Your correspondent is undoubt-
edly American in spirit at least,
otherwise he would not have oc-
cupied three-fourths of his letter
in proclaiming the many merits
of Uncle Sam (concerning which
we Canadians are perfectly aware)
and ignoring the issue, viz., the
neglect the Union Jack suffers in
Prince Rupert.

We were perfectly aware of the
fact that the Stars and Stripes was
flying in Britain and France and
that the Union Jack was flying in
the States, but we feel quite sure
that neither in Britain nor in the
States were the national flags
neglected.

On the 24th, ult., the Union
Jack was flying from the post of-
fice, whence it generally is, and
by a curious coincidence, the Cana-
dian flag was flying from the fire
hall, but the flag staff of the
Government Buildings, rising high
above all the rest seemed to pro-
test against its idleness. Since
our boys are fighting and dying
to keep the old flag flying, is it
not a reasonable request to make
that the Union Jack be seen every
day, waving from our numerous
flag poles?

Public Works, Prince Rupert, B. C. It is
also requested that a personal application
be made if possible.

Making a Flat World Round

When Columbus set out to reach India
by sailing westward, he met with opposition and ridicule.

He believed the earth to be round.

Wise men held that it was flat—that Columbus was mad
—and that he'd fall off somewhere if he departed from
established beliefs.

But Columbus' belief found him a continent and made
him blessed of memory.

The Business World is flat to some men

Their profit-bearing shores of Opportunity stretch only so
far as their grandfathers trod. Custom, superstition and
apathy have set them confining which they may not pass.

For instance, they believe the business year is a flat one—
not an all-year round of trade, with East joining West,
with Spring merging into Autumn—but just two distinct
seasons, with sawed-off edges gaping into space.

They confine their activities to a Spring trade and to a
Fall trade. To them there is no intervening continent
with stores of waiting wealth. Their world is flat. They
have not explored the mid-year months of Summer trade.
June, July and August are never-never land.

Surely this conception of Summer as a "dull" season is
as fallacious as the delusion that the earth was flat.
People have just as much money in the hot weather and spend quite
as freely as in Spring and Fall. Granted that they are not buying
skates and snow shovels in August, yet they are buying staple articles.
Furthermore, they have an eye on luxuries and comforts they are
counting upon purchasing in the Fall.

The modern Columbus has discovered this

Summer trade—this golden West lying between the known
continents of old beliefs. Departing from established
habit, many have made their energies and their Advertis-
ing an all-year-round proposition.

Keeping up Advertising during the Summer months not
only links your Spring and Fall, but produces rich har-
vests from the Summer months themselves.

Advice regarding your advertising problem is available through any recognized Canadian
advertising agency, or the Secretary of the Canadian Press Association, Room 508 Laidman
Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
