THE WORLD WIDE FOOD SCARCITY

Regarding the food situation which promises to be very serious before the end of the war, a letter of considerable interest has been received by an officer of the National City Bank of New York from Sir George Paish, of the "Statist" in London, of which the following is part:—

"I have been endeavoring to form some sort of notion of the world's supplies of food both this season and next, and have come to the conclusion that if the American people will continue to help the world to get through this time of great stress and strain by (one) growing as much food as possible and (two) themselves consuming no more than absolutely essential, the world will weather through, although the margin of safety will be very slender. Would it be possible for the ladies of America to start an economy campaign for the benefit of the women and children, not of Belgium only but practically of the entire world, for it is evident that many a poor family will not be able to buy food in the coming twelve or eighteen months in consequence of its dearth and scarcity unless those women who can afford to pay high prices voluntarily deny themselves and share the food which Providence provides with their poorer sisters? If they do this, then the heart of the world will beat with that mother-love which is all powerful for good and which will prevent the recurrence of such a disaster as that now threatening the human race.

"The need of humanity is great. The heart of America is also great."

You Can Make Excellent Cake With Fewer Eggs

Just use an additional quantity of Dr. Price's Cream Baking Powder, about a teaspoon, in place of each egg omitted.

This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

CREAM LAYER CAKE**Old Way**

1 cup sugar
3/4 cup milk
2 cups flour
2 teaspoons Dr. Price's Baking Powder
3 EGGS
3/4 cup shortening
1 teaspoon flavoring

New Way

1 cup sugar
1 cup milk
2 cups flour
4 teaspoons Dr. Price's Baking Powder
1 EGG
2 tablespoons shortening
1 teaspoon flavoring

Makes 1 Large 2-Layer Cake

DIRECTIONS—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Dr. Price's Baking Powder together, two or three times, add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.
