## An Army of Internal Bathers

Over half a million bright, keen, up-to-date Canadians and Americans have found that Internal Bathing is more essential to their well-being than External Baths.

Have found that, taken occasionally at night, they feel like different people the next morning. No more of that bilious, tired, nervous condition—but, having by Nature's own cleanser, antiseptic warm water, removed all the poisonous waste from the Lower Intestine, they awake thoroughly refreshed by normal sleep, with all their functions acting in healthy accord, bright, happy, clear-headed and confident, eager and capable for the duties of the day.

Copper Cliff, Ont., March 2, 1916.  
Dr. Chas. A. Tyrrell, Toronto, Ont.,  
Dear Doctor,—I have been using your "J. B. L. Cascade" for the past three months, and am convinced that it is the most modern and scientific method of dealing with constipation that has ever been devised, and I will lose no opportunity to promote its use among my friends, as I can speak truthfully and enthusiastically as to its merits.

Yours very truly,  
J. A. Darrach,  
Wholesale and Retail Men's Wear.  
Why not learn more about this rapidly-growing and natural practice? The "J. B. L. Cascade", the original and best appliance for this purpose, manufactured by Charles A. Tyrrell, M.D., is now being shown and explained by Cyril H. Orme, Druggist, corner 2nd Ave. and 6th Street. There also may be obtained free on request, "Why Man of Today is Only 50 Per Cent. Efficient," a most interesting booklet on the subject. If you prefer, write to Dr. Chas. A. Tyrrell, 163 College Street, Toronto, for same.

## BELGIAN TROOPS ALWAYS ON WATCH

Belgian Headquarters, June 5.—Here, where the Belgian army is making its own cannon, its own rifles, its own shells, its own transport wagons, its own saddles and harness, one can appreciate how other outstanding features of the war have unduly obscured the Belgian military effort since the battles of 1914.

The Belgian army had six divisions of infantry and two divisions of cavalry left to hold a line of approximately eighteen miles, or just about four men to the yard of front; a front where particular vigilance is required because of the German tactics of constant trial attacks. No part of the Allies' lines is more closely watched and explored by the enemy patrols.

A weak spot anywhere would provoke an immediate offensive.

### Belgian Army's Work.

The Belgian army has had to work incessantly to keep up its breastworks and at the same time put up an unrelenting defence. The solidity of that defence, it may not be sufficiently remembered, is an important factor in giving to the British and French armies liberty of movement in operating on other parts of the line.

Belgium lost all her manufacturing establishments and all her resources in raw materials in defeat of the Allies at Charleroi and in the retreat from Antwerp, yet Monsieur De Broqueville, Minister of War, with Belgian integrity, skill and perseverance, has built up on the hospitable soil of France artillery and munitions establishments that not only enable the Belgian army to reply shot for shot to the Germans on the Yser front, but also contribute to the armament and supplies of the Allied armies.

A regiment of auto cannon recruited among the Belgian refugees and trained in Paris was sent to the Russian front, where it played an important part in Brusiloff's offensive in Galicia and Volhynia in the spring of 1916.

Advertise In The Daily News

## Jogging Laziness into Activity

The merchant whose business lags in the summer has himself to thank.

To slacken the selling pace in the hot season—to lessen Advertising activity—indicates a resignation which has no place in modern business.

If we think we cannot keep our business booming in summer time, we surely will not.

What a jolt it must have been to the fur trade, when the first mid-summer fur advertisement was run in a daily paper! Now many fur stores are following the example of that progressive fur man who dared to believe that fur sales need not go down as the mercury goes up.

Energy, linked with Advertising, has turned the month of January into the biggest selling season for white goods. Advertisements of a high stimulative power, combined with a disregard of "seasons," have opened up automobile selling two months earlier than was once thought possible. Advertising has started Christmas shopping early in October instead of the middle of December.

Advertising rises superior to seasons and thermometers. The right kind of Advertising strikes a responsive cord in human nature—and human nature is the same in August as in December.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 803 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
