

THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since Taking "FRUIT-A-TIVES".

MR. MARRIOTT
73 Lees Ave., Ottawa, Ont.,
August 9th, 1915.

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-tives', I thought I would try them. The result was surprising. During the 3 1/2 years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives', and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

THE DEBATE ON CONSCRIPTION

Ottawa, June 28.—At the outset of the debate on the conscription bill it was intimated that the government, having through the prime minister outlined the needs of the situation and explained the provisions of the measure, would put up few speakers, and would leave it to the opposition to monopolize the discussion in expatiating upon its various points of view. Sir George Foster and Sir Edward Kemp were to be the main speakers, following the prime minister, and after that there were to be few others. It has since apparently been decided that the government will put up a man for every man put up by the opposition. The debate has continued along these lines from the commencement, and it is likely to continue to do so for the better part of the week from all present indications. There will be very few members on either

side who will not have been heard from before the bill comes to a vote on the second reading.

From present indications the division will find about a score of Liberals voting against the Laurier amendment and for the second reading of the bill. It will find a few more voting for the amendment and on its defeat voting for the second reading. And it will find practically all of the French-Canadian members and a number of maritime provinces' men, together with a small group from Ontario and the west, voting for the amendment and against the second reading of the bill.

Referendum Preferable.

Mr. German based his support of the Laurier amendment on the principle that no punitive legislation can be placed on the statute book and enforced without the predominating backing of the people at large.

He believed that if the people were appealed to by a referendum in connection with the present measure they would approve of it. But he believed on the other hand that if it were forced upon the people nothing but distrust, discontent and disaster could follow.

Dr. Pugsley, who represents a constituency largely composed of United Empire Loyalists, took his political life in his hands and opposed the measure bitterly on the ground that the voluntary system had not been given a proper chance. Canada which already had done well, he argued, could give more effective aid to the Allies by preserving national unity than by jeopardizing it. A moribund parliament which did not represent the people and a government which had followed party lines since the beginning of the war, he declared, had no right to pass or enforce such a measure.

No Extension.

As significant of what may follow, Dr. Pugsley was accorded a good deal of applause when he declared that if extension were again brought up in parliament he would not repeat "his mistake" of last season by voting for it. The present government, he declared, had shown itself unworthy of that extension by bringing down an autocratic measure. All the more significant was the fact that Sir Wilfrid from his place said "Hear, hear."

Help Canada Maintain Her Financial Freedom

Do Your Share towards Financing the Canadian Savings Rather than with Outside

THE problem of meeting the enormous cost of the war is a problem of course, as loans—but she must get it possible here in Canada.

We can carry the war-debt if the bulk of the Canadians, and so is used again in the country. But it will be a serious matter for us if a large interest has to be sent outside the Dominion.

For the sake of our own and our children's on our resources must be avoided! Canada can and must be maintained! An average day, invested by each man, woman and child in Savings Certificates, would enable us to carry the war. To approach this average, hard work, but sacrifice are required of every citizen.

For each \$21.50 you lend the Government receive \$25.00 in three years—or you can get it at any time. Certificates are issued in denominations of \$100, and may be purchased at any Bank or Post Office.
