## TAXING WAR PROFITS

The Minister of Finance is asking the people of Canada for their aid in floating a domestic war loan, and he will undoubtedly carry the country with him but he is neglecting in an amazing way a veritable gold mine of revenue available to his hand. Mr. McKenna, the British Chancellor of the Exchequer, hopes to secure \$150,000,000 of revenue for the treasury during the current year from excessive war profits. In Canada Mr. White should be able to collect from fifteen to twenty million dollars in taxation of war profits without hurting any legitimate interest.

In a contemporary appeared the following paragraph, which may or may not have been intended to assist in stock market operations, but which assuredly should find a place in Mr. White's scrapbook:

"Sir Henry Pellatt, president of Steel and Radiation, Limited, has submitted in a report some figures of the profits the company expect to make on war munitions. It has on hand or in immediate prospect contracts amounting to \$2,060,000 and from these profits of \$1,050,000 will be realized, which is about 50 per cent. on the turnover and about 30 per cent. on the company's capitalization of \$3,526,400. The contracts include 200,000 of 12-lb. shrapnel (cases only) at \$3.80, total \$760,000, on which the profit is placed at \$400,000; 200,000 high explosive shells at \$4, total \$800,000, with profit of \$400,000; 50,000 6-inch shells (100-lb.) at \$10, total \$500,000 with profit of \$250,000."

Love of liberty, determination to preserve the Empire, and a profit of 50 per cent. on the turnover make an irresistible combination. But is there

no way of keeping copies of yesterday's Toronto World from reaching the people of the United Kingdom? When they see that they are under contract to pay \$2,060,000 for shells which cost \$1,050,000 to manufacture they may come to the conclusion that the Empire needs to be saved from others than the Germans.—Toronto Globe.

## NOTES AND COMMENTS

Moses Cotsworth will be careful in future to distinguish between a man being fired and a man handing in his resignation, though sometimes it is a case of a distinction without a difference.

Prince Rupert has its share of gales, but it is evidently more fortunately situated than Little Rock, Ark., where thirteen people were killed and twenty injured in a tornado which lasted only ten minutes.

The Kaiser must be getting rather annoyed that his peace offers are being so scornfully rejected, first by Russia and now by the Serbian Crown Prince.

Gorizia has been a tough proposition for the Italians, but it is evidently going to fall with an awful crash. Vienna is a long way off, but there is nothing like looking ahead.

France is showing Germany that she spares neither men nor millions in her effort to overthrow Prussianism.

The Grand Trunk Pacific Railway Company has been awarded a gold medal and diploma for its magnificent exhibit at the Panama Exposition in San Francisco.

## C. E. BANTER RETURNS FROM EASTERN VISIT

C. E. Bainter returned on the Princess May yesterday from a visit to his old home at Mount Vernon, Ohio. He also visited Cumberland, Md., Chicago, Minneapolis and several other centres in the east.

He reports that things are booming in the eastern states and that mechanics are in great demand. In most districts crops have been good, only in a few counties have they suffered from heavy rains. He states that everywhere he noticed a strong feeling of sympathy with the Allies, even amongst people of German origin.

In Portland, Ore., Mr. Bainter met Dr. Gilroy, formerly of Prince Rupert, who is taking a post graduate course in dentistry. He also visited Mr. and Mrs. John Chisholm there.

## SCIENTIFIC MANAGEMENT

An advocate of scientific management told the following tale the other day:

"Two men stood watching a steam shovel at work. With a clatter and a roar the shovel bit into the steep bank, closed on a cartload of earth, and dumped it on a waiting freight train."

"It makes me wild," said the first onlooker, "to see that monster taking the bread out of good men's mouths. Look at it. Why it's filling up those wagons faster than a hundred men with picks and shovels could do it."

"But the other onlooker shook his head, and answered: 'See here, mister, if it would be better to employ a hundred men with picks and shovels on this job, wouldn't it be better still, by your way of thinking, to employ a thousand men with forks and tablespoons?'"

—Til Bits.

## NAVIGABLE WATERS' PROTECTION ACT.

**R. S. C. Chapter 115.**  
RICHARD B. MCGINNIS hereby gives notice that he has, under Section 7 of the said act, deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of Titles at Prince Rupert, B. C., a description of the site and of the plans for a wharf proposed to be built in Alice Arm, Observatory Inlet, British Columbia, at a point situated about 3-4 miles south of the south-east corner of Lot 1074, Range 5, Coast District, B. C.  
AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, Richard B. McGinnis will under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans, and for leave to construct the said wharf.  
DATED at Prince Rupert, B. C., this 22nd day of October, A. D. 1915.  
RICHARD B. MCGINNIS, Applicant.
