

ZAM-BUK

This illustrates but one of the many uses to which Zam-Buk, the great herbal balm, is daily put. Accidents will happen, especially where there are children. Mothers should never be without Zam-Buk. Zam-Buk is the best "First Aid." Its strong antiseptic properties kill all germs, preventing blood-poisoning and inflammation. Its rich, herbal essences quickly ease pain and build up new healthy tissue. Zam-Buk is entirely different from all other ointments. It is purely herbal and contains no poisonous coloring matter. Take no substitute. See the name on every box before paying.

ZAM-BUK HEALED SEVERE CUT

Mrs. J. E. Bierwirth of Carnduff, Sask., writes: "My little son cut the end off his finger. As it was such a severe cut, I was going to take him to a doctor, but in the meantime to ease the pain, I applied some Zam-Buk. This stopped the bleeding and gave him such relief that he ceased crying and seemed quite at ease. I therefore decided to see if Zam-Buk would heal the wound. Next day I replaced the dressing, and continued to do so each day, using nothing but Zam-Buk. Complete cure resulted."

BIG POWER PLAN FOR PALESTINE

Norse Engineer Proposes Connect Mediterranean With Dead Sea by Tunnel.

CHRISTIANIA, Jan. 20.—A Norwegian engineer has devised a plan to provide water and electric power for Palestine at an initial cost of \$40,000,000. Albert Hjorth, of this city, proposes to utilize the variation of the level between the Mediterranean and Dead Sea and, by means of a tunnel, would carry water from the Mediterranean to the western slopes of the lower end of the Jordan Valley. Thence the water would pass through pipes down to the Dead Sea, where a power plant would transform the water power into electricity, to be distributed as light and power throughout the country. This power would be used to drive a pumping station at the southern end of the Sea of Galilee (Lake Gennesaret).

Below Sea Level.

The surface of the Dead Sea is about 1,300 feet below sea level; that of the Sea of Galilee 650 feet below sea level.

Preliminary estimates, Mr. Hjorth states, show that tens of thousands of horsepower might be developed in this way by means of a tunnel carrying twenty tons of water per second. He estimates the rise of the Dead Sea caused by this at not more than part of a yard per year. The surface of the sea, which is now about 4,000 square miles, would be allowed to increase to about 4,800 square miles.

Two Canals.

Two canals would be built running parallel with the River Jordan and from these canals water would be distributed among the fields sloping toward the Jordan, sufficient, it is claimed, for the irrigation of many hundreds of thousands of acres.

Mr. Hjorth claims it would be no more difficult to build this tunnel than the proposed railway tunnel under the English Channel. It is pointed out that the estimated cost involved in this plan does not compare unfavorably with the irrigation works constructed in Asia and America during the past decade.

An Expedition.

Mr. Hjorth's plans have met with great sympathy among leading scientific authorities and practical engineers in Norway. It is proposed to send out a Norwegian technic-scientific expedition which, with the anticipated support of the governments of the great powers interested, will proceed to Palestine and make a year's thorough investigation of all the conditions relative to the realization of this project—topographical, hydrological, technical, geological, hygienic, etc.

The Army and Navy Veterans at a meeting on Saturday strongly endorsed the stand taken by Col. Peck, V.C., M.P., in seeking re-establishment for soldiers in the fishing industry.

TOO LATE TO CLASSIFY

WANTED—One or two lots in Section 6, 7, or 8. State lowest possible price for cash. P. O. Box 735. 1f.

FOR RENT—Two Housekeeping rooms, partly furnished, Drexel Rooms, Second Avenue. 18

FOR SALE—Fairbanks Heater Apply Linzey's Grocery, Sixth Avenue, west. 1f.

NOTICE

TENDERS will be received by the undersigned up to noon on Wednesday, January 23d, 1920, for the purchase of the 45-ft. fishing boat, "Vital Spark," and gear, the property of the late William Selig. The highest or any tender not necessarily accepted.
