See Ourselves as Others See Us.

Sometimes it is a good thing to see ourselves as others see us. That we can do this week by reading the editorial in the Interior News in regard to the establishment of samplers for the mining industry, as suggested by the committee of the Board of Trade headed by J. B. Roerig. The editorial says:—

"That the Prince Rupert Board of Trade should get behind the miners in their request for assistance will be encouragement to the mining community and occasion no surprise from the general public, who are used to the spectacle of coast folks floundering around in support of one thing or another. Prince Rupert has jumped behind many projects, but not being quite sure where they were going to land in the first attempt they generally stopped after the first effort in case they bumped their nose. Then they got behind something else.

"In the worthy cause to which they are now committed, that of convincing the government that the time is ripe to establish ore sampling and purchasing plants, the general public will earnestly hope their enthusiasm will not be so short lived, and that their efforts will be lively to the successful accomplishment of their purpose. With the idea of a sampling works as a short-cut to the development of our mineral resources, the Interior News has always been an advocate, and we cannot commend too highly their desire for and action in assistance of mining, as manifested by the memorandum they have drawn up, and in support of which they are sending a delegation to Victoria."

Should Concentrate On One Plant.

"While the News (of Smithers) is in accord with the idea, it cannot approve of the locations suggested in the memorandum whereby samplers would be established at Stewart, Alice Arm and Prince Rupert. Why two for the upper coast to the neglect of lower Skeena and Omineca districts? And if we share with Stewart, what would Rupert do with one?

"It looks as though the memorandum was just a trifle reckless in this respect, and it is to be hoped that it will not endanger their whole case. For the coming summer at least, one plant of generous capacity located at Prince Rupert would serve well the needs of Stewart and this district.

"May they keep after that one.

"When he points to our necessity for purchasing manufactured copper in foreign markets from Canadian raw material, Mr. J. B. Roerig, who was prominently connected with the memorandum, plays a tune on the heartstrings of all true Canadians, which can have but one result.

Include Zinc In Refinery

"A similar situation exists in regard to zinc, of which there are large deposits at Hazelton, Smithers, and in the Owen Lake and White Sulphur districts which could be profitably mined were a home market available. Just now, and although Canada is a large consumer of zinc, she must go to the American markets for the bulk of the commercial product.

"The Silver Standard mine at Hazelton has shipped several cars of zinc ore, produced along with its silver-lead ores, to Oklahoma for treatment, owing to the absence of nearer markets. In this case the lengthy freight haul alone would constitute a good profit on the ore, and, therefore, in considering a refinery, it would appear that zinc should be regarded with copper."

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-TIVES"

MR. AMEDEE GARCEAU

82 Hickory St., Ottawa, Ont.

"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-tives' and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-tives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-tives' a trial."
