INFLUENZA

Shall there be a repetition of the "Flu?" This question is asked daily of our leading physicians and cannot be answered. Throughout the east we are told of the rapid spreading of this deadly disease.

This city experienced an exceptionally severe run of this epidemic a little over a year ago. Common sense would dictate taking every reasonable precaution now.

SAVE YOUR SIGHT

EYESIGHT—The most valuable of all the senses—is the most neglected and the least understood. Many suffer from ill, which, upon examination, can be traced directly to defective eyesight.

THE removal of the cause will often restore the delicate and run-down sufferer to robust health. When glasses are properly prescribed, they restore the vision to normal and eliminate all eye strain.
