Owing to the early opening up of the camps and the steady movement of business to Stewart and Masset Inlet points the Grand Trunk Pacific Steamship Service will commence a regular weekly service to those points with the Prince Albert and Prince John.

At Masset Inlet there are at least eighty men working at Buckley Bay and the Prince Rupert Lumber Co. is just opening a camp with half a hundred men at Shannon Bay. Are Washdays Necessary in Winter?

There was a time, back in the days of stone hatchets, when woman was harder than she is today. A biting wind, damp air and slush underfoot did not so much endanger her then.

But is this exposure necessary now? Is woman exercising her best judgment in hanging clothes on the line in winter weather? Is man showing chivalry when he permits it?

A simple and safe solution of this problem is to send your family washing to us—especially during these days while the weather-man is surly.

No washboards or heavy soaps are employed by us. We wash for you in the twentieth century way by letting soft water and billowy suds surge through the fabric. It is a laundering method that saves clothes.

So, also, is our ironing process. We give a charming lustre to your linens not with hot irons, but with special steam heated presses that protect the textiles.

Telephone us. Our driver will call at a definite time for your family bundle. At a definite time also he will return it. Our method saves you labor and protects you from the rigors of wind and weather.
