TELEPHONE SWITCHBOARD TO BE BOUGHT

Recommendations of the Utilities Committee to This Effect Adopted Last Night.

A new switchboard costing \$3,597 f. o. b. Rochester, N. Y., is to be bought from the Stromberg-Carlson Co. for the city telephone department. By the time the switchboard reaches here it will cost \$5,106, including freight and duty. This decision was made at last night's meeting when the city council adopted the recommendation of the utilities committee. Ald. McLennan inquired if this could have been bought in Canada and was answered by Superintendent Duncan that the department had delayed the purchase two months to try to do so but without avail.

Three transformers costing \$873 each are also to be purchased for the light department to carry the extra 350 h. p. load to the sawmill at Seal Cove. These will be bought from the Maloney Co. through the agent, Frank Darling of Vancouver. The mill contract and other points were thoroughly discussed before the utilities committee report on this matter was adopted.

COL. BARKER GETS ANOTHER DECORATION

Now Holds More Than Any Other Living British Airman.

TORONTO, April 12.—Lieut.-Col. Wm. G. Barker, V. C., D.S.O., has been awarded the second silver medal by the King of Italy for his wonderful and heroic fighting in October, 1918, in which he tackled sixty Huns singlehanded and shot down nine of them before he was brought down by enemy fire.

Col. Barker now holds more decorations than any other living British airman.

FISHING STORY AT WESTHOLME TONIGHT

One of the oldest, most famous and most picturesque of seaport towns, Gloucester, Mass., was chosen by Nazimova and Albert Capellani, her director, as the place best fitted for many of the scenes in "Out of the Fog," the latest Nazimova production in which this noted star was seen last night at the Westholme.

This old fishing town—the home of the famous clipper ships, once the pride and glory of Yankee captains—has been sung in song and story and is the place where Kipling wrote his greatest adventure of the sea, "Captains Courageous," and where he made his home while he lived in America. It is a town filled with the romances and traditions of the sea and retains the customs and manners of over a century of seafaring people. These manners and customs have crept into the pictures taken here and make "Out of the Fog," a vivid piece of realism—a real story of real fishermen.

This picture will be shown here again tonight.

FELL OFF SIDEWALK, CLAIM FOR DAMAGES

At last night's council meeting the application of Mrs. A. G. Grate of Seal Cove for \$50 to cover a doctor's bill when her little boy fell over a high sidewalk without a railing on Alfred Street and broke his arm, was received and referred to the Board of Works and the city solicitor for report. It appears that this is the second accident the lad has had in falling over sidewalks.

Notice to Advertisers

Casual advertisements for insertion same day should be in the Daily News office before 10 a. m. Changes in advertisements should be on hand before 5 p. m. on previous day.

"Save the surface and you save all" Paint & Varnish

Safeguard Your Roof

THE roof is an important item—it "makes" or "mars" the whole structure. In shingle-roofed houses it is even more necessary to see that it is in good regular repair, because once a roof commences to decay a general deterioration of house-value is the immediate result.

To ensure a permanent durability, as well as an added appearance, use

B-H Shingle Stain

either as a mixture in which shingles are dipped or as a stain to apply to the completed roof.

It comes in all colors, and gives a tough, durable "seasoning," besides contributing largely to the artistic effect of your home.

Like every other B-H product, the B-H Shingle Stain is first choice among people who know good paint.

CITY TRANSPORTATION

To the Editor.—We read with interest an item in your issue of Saturday last the 10th inst., during a conference between the Board of Trade and the City Works Committee, a statement made by the city engineer regarding the size of loads carried by the busses, etc. It seems worthy of note that the department responsible for the upkeep of roads should admit their neglect and failure to such an extent that the roads have been allowed to become in a condition unsafe for the traffic, which, we can safely say, is of much lower tonnage than the city's own fire department trucks, which are very necessary vehicles using the roads for the safety of the city. In the event of a regulation which might force us to discontinue our bus service, what preparation is the road department making in case of fire? As surely in the circumstances the present fire trucks will be unsafe on such roads. Also what conveniences do they intend to adopt for the public?

It has been our endeavor in the past to give the public a means of transportation so much needed especially to the residential and those whose business and work take them in the vicinity of Seal Cove, and which we believe has been greatly appreciated by the public, particularly during the bad spells of weather.

We would like to point out this fact, outside of the business proposition on our part, that a means of transportation, especially to a growing city, is an asset of consideration, but, it seems, the object of the present administration of the city is to hinder progress by making it difficult for those who are helping along in that direction.

Thanking you in anticipation for a space in your valuable paper, we are,
GENERAL TRANSPORTATION Co., per L. Crane.

The current number of the B. C. Gazette records the incorporation of the Prince George Exporting Co. with a capital of \$10,000.

Mrs. A. M. Manson, who went south just before Easter, is staying at the Empress Hotel, Victoria.
