

NOTE THIS ADJUSTABLE WEIGHT

found only on

The Brunswick

ALL PHONOGRAPHS IN ONE

DIFFERENT makes of records require different weights. If the weight is not exactly right the tone is inferior and the record will very likely be damaged.

This is one of the reasons behind the invention of the Brunswick Ultona, illustrated above, which by a mere twist of the wrist, is instantly adjusted to all makes of records.

The adjustable weight balance in the Tone Arm gives exactly the right weight required by every make of record. Consequently, with the Brunswick Ultona ALL makes of record are played CORRECTLY and without possibility of injury to any make of record.

No other instrument possesses this invention. It is a Brunswick feature pure and simple. It alone protects you from damaged records, and makes the Brunswick the only true "Universal" phonograph which plays ALL records CORRECTLY.

Call and see this feature for yourself. Hear the superior tone quality it gives. Come—let your ears be the judge!

Sunlight Wash Days—

A Sunlight Wash Day is free from the toil and labour usually associated with washing, because Sunlight Soap washes clothes beautifully clean and white without rubbing or scrubbing.

Sunlight Soap

being the surest, gentlest, purest of all cleansers is kind to the clothes—they last ever so much longer—kind to the hands, too. Every cake carries the Sunlight \$5000 guarantee of purity.

All you do is soap the wet clothes with Sunlight—roll each garment tightly and leave to soak. Later you rinse thoroughly. No wrenching or relentless rubbing. The dirt just really drops out. You can go out shopping—or do other work—while Sunlight is actually cleaning the clothes for you.

Insist on getting the Soap you ask for—SUNLIGHT SOAP.

ALBERT B. ARMSTRONG,
ALLEN FALCONER,
by Allen Falconer, Agent.
DATED 12 May, 1920.

TAKE NOTICE that Taylor Mining Company Limited, whose address is 607 Credit Foncier Building, Vancouver, B. C., will apply for a licence to mine and use 2,500 cubic feet per second and to store 2,500 acre feet of water out of Clearwater Creek, tributary of the Kitzault River, which flows westerly and drains into the Kitzault River about 23 miles north of Alice Arm, in the Province of British Columbia.

The storage dam will be located at the outlet of Clearwater Lake. The capacity of the reservoir in the dam is about 2,500 acre feet, and it will flood about 300 acres of land. The water will be diverted from the stream at a point about the outlet of Clearwater Lake. The exact position of which will be determined after survey, and will be used for power purposes upon the territory described as an area of 50 miles radius from the Wolf Group of Mineral Claims near the Kitzault River.

This notice is posted on the ground on the 20th day of June, 1920.

The petition for the approval of the application pursuant to the said Water Act, 1914, will be filed at the office of the Water Recorder at Prince Rupert in the Province of British Columbia.

The territory over which the power will be distributed is an area of 50 miles radius from the Wolf Group of Mineral Claims near the Kitzault River.

The petition for the approval of the undertaking will be filed in the office of the Comptroller of Water Rights and with the Water Recorder at Prince Rupert aforesaid, and will be heard in the office of the Board of Investigation at a date to be fixed by the Comptroller of Water Rights, and any person interested may file an objection thereto in the office of the Comptroller of Water Rights or of the Water Recorder at Prince Rupert aforesaid.
