## Fish Car Shortage To Be Relieved

### EIGHTY MILLION BUSHELS GRAIN MAY BE SHIPPED BY WAY OF VANCOUVER

#### Refrigerator Cars Coming From American Express Co.

Expected to Arrive in about Two Weeks to aid in carrying Halibut to Market in Eastern States

At the Fish Exchange this morning considerable excitement was evidenced over the good news that probably within two weeks American railway refrigerator cars will be coming to Prince Rupert in order to help with the transportation of the fish from this port. At the present time the Canadian Express companies are conferring with the express companies of the United States and plans for the definite arrangements will soon be known. It is expected that within two weeks the new rolling stock ought to start arriving. About 25 cars have been promised and with such material assistance the local companies will be able to do a much greater business and it will also benefit the fishermen, for the price of the fish will be kept up and there will be less selling for freezing purposes. Some time ago Seattle's fish trade was cramped by a car shortage but the tension has been lifted down there and they apparently have cars to spare now. It will mean great things for this port in the very near future for much of the best fishing is well into the fall.

WINNIPEG, August 7.—Captain Acheson, general agricultural agent, in an interview here stated that the bulk of Alberta's banner crop will be routed west instead of east this season. It will go by way of Vancouver and the Panama Canal to Liverpool. The amount estimated to be shipped by way of this coast is set at 80,000,000 bushels.

VANCOUVER, August 7.—A report has been received here to the effect that a large part of the grain crop of Alberta will this year be shipped from this port. The Dominion Government elevators here have never been used to any very large extent, but now it seems as if Vancouver is to become a grain port.

#### NAVY LEAGUE REORGANIZED

Officers Elected for Coming Year; C. V. Evelt to Father Naval Brigade.

At the reorganization meeting of the Prince Rupert and northern British Columbia district branch of the Navy League held in the Court House last evening, J. F. Maguire was elected chairman. Before accepting the chair Mr. Maguire expressed how closely he held the movement at heart. It was not the first time that he had served on just such an organization and with the help of the others he felt that the Navy League would readily flourish in this city.

Percy Tinker was appointed secretary-treasurer. The other executive members elected were Mrs. H. L. Roberson, Mrs. A. T. Parkin, L. M. deGex and Major J. H. McMullin. Mrs. Roberson will be convener of the educational committee and will carry on the work of arranging competitions in the schools and distributing literature amongst the youngsters.

Other two members of the league are ex-officio executive members. They are C. V. Evelt who will look after the Naval Brigade and Capt. McCoskrie who will instruct the youths in the nautical elements. Both men, it is thought, will be able to serve very satisfactorily in these capacities.

#### FINANCIAL CONDITION OF BOARD OF TRADE

Preparations to be Made to Entertain Premier and Other Ministers.

The finances of the Board of Trade were discussed last night and it was decided that the finance committee should meet the City Council and talk over the matter of entertaining the cabinet ministers when they visit the city. Hon. C. C. Ballantyne is expected to be here soon and Premier Meighen later. Then there will be visits from other ministers, in all probability. It was thought wise that a policy in regard to these visits and the methods of financing the receptions, if any, should be discussed.

The financial statement of the Board of Trade showed that already, owing to various calls made on them, they were scarcely solvent. It would be impossible to meet the expense of entertaining unless money was secured somewhere.

#### BASEBALL BOYS GIVE A DANCE

Enjoyable Time Spent by Large Crowd at Auditorium. Last Night.

The baseball boys brought great honor upon themselves last evening by the fine dance which they gave in the Auditorium on Sixth Avenue. Gray's orchestra did its share to the success of the evening in the large variety of dance tunes contributed. It was really excellent music and L. J. Marren's fine hall was filled to capacity for comfortable dancing. A rather novel feature was introduced last evening in the serving of ice cream and cake during the dances. Instead of having a special time set apart for the refreshments the boys were on deck to serve during both the first and second halves of the program. A flashlight photo was taken of the gathering.

Those who assisted so unflinchingly in the kitchen were Messrs. Clementson, Corkle, Day, Stickney, Farquhar, Blyth, and Cummings. Captain Clementson was just the man for making the announcements and Sid Hardy kept all in good humor by squeezing in a few extras.

Word has been received in the city of the death of Miss Hope McLeod of the nursing staff of the Vancouver General Hospital. After returning to Vancouver from this city Miss McLeod suffered with diabetes to which she has finally succumbed. Miss McLeod was with the graduating class of 1918 at the Vancouver General Hospital and was liked by all her class mates. While in Prince Rupert she won the sympathetic support of all the nurses, here at that time. #### BIG DROP IN GRAIN RATES

Indications are That a Rate War May Develop.

VANCOUVER, August 7.—The first shot against the Jones Bill to help the American mercantile marine against foreign competitors is a sensational reduction in Pacific freights. The U. S. Shipping Board set a rate of \$28 a ton for grain. The British and Japanese cut the rate to \$26 today. The U. S. rate dropped to \$20.

There are indications of a rate war.
