NANCY JANE FOR THE BOYS

Major Gibson Gives Craft for the Use of Boys' Naval Brigade.

At last evening's meeting of the local branch of the Navy League it was decided that the matter of estimates for the formation of a Boys' Naval Brigade here be left in the hands of the new executive and Lieut. Helmsing. Major Gibson has kindly consented to let the local branch have the use of the "Nancy Jane." This is just the style of boat that will suit the work for the boys but she needs fixing up. The provincial organization will very likely make these necessary repairs and will advance ten uniforms and following that the branch can carry on.

It has been rather a stumbling block to get someone to take over the nautical instruction but the matter was smoothed out last evening when Capt. McGoskie offered his services. He is just the style of man required to give the boys a few tips on seamanship as he has had a wide experience "before the mast." C. V. Eviatt will have charge of the boys otherwise and the services of a man with such a ready executive ability will quickly bring the brigade into its own.

Before it was finally decided to go ahead with the organization Lieut. Helmsing explained how fortunately Prince Rupert was situated for a first class naval brigade. The water and boats were here and vessels of all sizes come into the harbor. If a person took a stroll down to the drydock ships could be seen in the course of construction. The parents should not think that the brigade was to train up fighters. Although the Navy League came into existence during the war it is not a war time measure, but has really absorbed the Sailors' Institute and other such benefit organizations. It was to help the mercantile marine that better trained boys should be able to take their places on British ships and thus eliminate from the crews aliens and Orientals.

KILL AMUSEMENT TAX.

VICTORIA, Aug. 7.—The plan to impose an amusement tax in Oak Bay has been killed in committee before it reached the municipal council. The tax would have hit the skating rink hard, as that institution is situated in Oak Bay.

MOVING PICTURE MAN IS IN TOWN

Starts Work Directly on His Arrival at the Dock.

Prince Rupert has a moving picture photographer here in the person of Wm. Fox who is associated with the exhibits and publicity bureau of the Department of Trade and Commerce at Ottawa. Mr. Fox arrived on the Prince George this morning and leaves tonight for Stewart and upon his return will visit Anyox. Two or three days will be spent here next week when various points of interest will be photographed.

This morning as the train pulled out Mr. Fox was right on the job with G. A. McNeill and the passengers were "shot" from a number of angles. This big train was taken as it moved out, first as it approached and then after it went by. The local young ladies on the observation car were all smiles for the camera man.

PREMIER AT PEACE RIVER

Went Up on Same Train With Mr. Bowser.

Hon. John Oliver, premier of British Columbia, was in the city Monday morning on his way to the Pouce Coupe country, where he will look into the railway situation. The settlers there have been pressing upon the government the need of transportation for their crops there, and both the premier and the leader of the opposition, W. J. Bowser, went north on the Monday train.

At present the only outlet from the Pouce Coupe country is to Grande Prairie in the summer, and in the winter they can come in over the Edmonton, Dunvegan & B. C. railroad grade to Spirit River, which cuts down the trail to about sixty miles. It is close to a hundred miles overland to Grande Prairie, and that is counting from the nearest edge of settlement. There is no way of getting in from British Columbia at all, and the people are pressing for the extension of the Pacific Great Eastern.

A great number of soldier settlers have come into the Pouce Coupe country this year, settling in a regular colony across the Outknife river. A great deal of stock has gone in during the past couple of years also, the natural grass in that country being eminently suited for the production of the finest beef, and all of these factors force the settlers to press for railway communication with the outside world.

Premier Oliver was in consultation with Premier Chas. Stewart at the Parliament buildings Monday morning, but neither spoke of the plans. In fact, Mr. Oliver said that he did not have anything definite to say until he saw the people and looked into conditions for himself.
