MACKENZIE KING

Plans Made to Give him Proper Reception in Vancouver

Arrangements have been practically completed for the visit of Hon. Mackenzie King, Liberal leader, in Vancouver. The plans include a public reception at the Hotel Vancouver, a boat trip on Burrard Inlet and up the North Arm, a visit to the New Westminster Exhibition and a mass meeting in the Arena. Mr. King will spend September 28 and 29 in that city.

The reception in the Hotel Vancouver will be held on the evening of September 28, and will be in charge of the Women's Liberal Association. The general public will be invited.

W. G. Anderson, LL.B., an old friend of the Liberal leader and chairman of Ward VI. Liberal Association, will preside at the mass meeting in the Arena on the following evening. He was one of the Vancouver delegates at the Ottawa convention at which Mr. King was chosen as leader.

M. A. Macdonald will deliver the address of welcome and in addition to Mr. King the other speakers will be Hon. Dr. Beland and Ernest Lapointe, M.P. The G.W. V.A. band has been engaged to play during the evening and among those who have accepted invitations to appear on the platform is General Victor Odium, D.S.O.

In the Letter Box

THE RELATION OF ALCOHOL TO VENEREAL DISEASE

To the Editor—The awakening of the public to the prevalence of venereal disease and the realization of the menace involved has been one of the most satisfactory indications that we are at last awakening to some basal factors of national importance regarding the welfare of our race. Parliaments both federal and provincial have granted large sums of money, clinics have been established where free treatment can be had, vigorous methods have been undertaken to eradicate this plague, educational films have been shown and lectures delivered, but one factor has not been sufficiently emphasized, that of the association of alcohol with the venereal plague.

Even the most superficial observer must have noticed the frequency with which these conditions are associated, but to the social worker and the physician the matter assumes an aspect of sufficient import to demand exposure. Not only does alcohol dull the perceptions and cloud the judgment, but it obliterates the moral sense. It is when the will is led captive, when the higher faculties are in abeyance and the lower activities rendered more acute, when passion rages and controls the individual, then the forces of hell hold high carnival, disease preys upon virgin purity as the giddy dance of death goes on.

It is the common experience of physicians that the patients meet their first infection while under the influence of alcohol. A prominent social worker within our province stated that she had on her list the names of 119 delinquent girls, and that all of these were first led astray while under the influence of liquor. Let me quote from the report of the Royal Commission on Venereal Diseases, page 27: "The use of alcohol is closely related to venereal disease of all kind. It causes both men and women to yield to sexual temptation through weakening of moral and intellectual control; it also diminishes the physical resistance and aggravates disease. Alcoholism also excites into activity latent syphilis and gonorrhoea, and renders the body refractory to treatment. Absolute abstinence from alcohol is necessary during treatment."

The campaign against venereal disease cannot be successfully prosecuted so long as alcohol is freely available. A vote cast against prohibition is a vote cast in favor of letting loose the venereal plague, which is now recognized as the most desperate of the enemies of mankind.
