

That 1st Autumn COUGH

will, unless it is attended to, mean a severe attack of throat trouble or bronchitis this coming winter. Therefore, get a box of Peps and take a few of these wonderful little breatheable tablets at once. They will free you of that cough and make your throat strong enough to withstand the extreme winter weather.

Peps give strength to the chest and are invaluable for coughs, colds, sore throat, laryngitis, bronchitis and asthma.

PATTULLO MAKES STATEMENT OF THE GOVERNMENT POLICY

(Continued from page 4)

policy, we have done three outstanding things: We have put our financial house in order. We have tried to make conditions favorable for the development of our natural resources. And we have tried to improve the conditions affecting our home life.

Prince Rupert Electoral District.
In the foregoing I have briefly outlined general governmental policy. I would like to specialize somewhat as to the Prince Rupert Electoral District. I believe that the Prince Rupert Electoral District has greatly profited by the general forward policy of the Government, notably in respect of its land policy. There can be no doubt that the reason that Prince Rupert is now enjoying the prosperity which it is enjoying is due to the development of the natural resources tributary to the city—fishing, mining, agriculture and timber.

General Appropriation.

In respect of appropriations for the district, I would like to draw the attention of the electors to a number of matters. The annual appropriation for the Prince Rupert Electoral District for roads, bridges, etc., has been as generous as for any other electoral district, and in respect of actual amount has always ranked with the highest.

Prince Rupert.

In Prince Rupert city, accommodation in a small way was provided at Cow Bay for the mosquito fleet, and the Provincial Government stands ready, as it has stood ready, to donate waterfront at Seal Cove for accommodation of the fishing and mosquito fleets if the Dominion Government will erect the necessary wharf and buildings. A large amount has been carried in the estimates for the improvement of the McBride Street wharf, and if the Cow Bay situation can be adjusted on a proper basis, the Government waterfront will be an exceedingly valuable asset to the industrial life of the city. With this question properly adjusted, the Provincial Government will grant to the city what is known as Waterfront Block "A" for city purposes. The Government has pledged itself to a vote of \$6,000 for the Section 2 bridge; \$60,000 for the high school; while tenders are also being called for the erection of a suitable government building on Market Place. The plans have already been approved by the local authorities and meet with general approval. The contract will be let forthwith and the work proceeded with without delay. This new building will approximate \$100,000. Prince Rupert has also received \$100,000 from the Better Housing fund, which is considerably more than its quota according to population.

Queen Charlotte Islands.
Other portions of the Electoral District of Prince Rupert also have received the most careful consideration. Work is already commencing for the construction of the road from Port Clements to Tl-oil. This, with the completion of the road from Skidegate to Queen Charlotte City will give a trunk road from Queen Charlotte City to Port Clements and will be a most valuable factor in the development of the Queen Charlotte Islands.

Terrace.

At Terrace an amount is carried in the estimates to make a start on the Skeena bridge, but I do not think that there is yet unanimity of opinion as to the exact location where the bridge should go, but this situation will be brought to a head as rapidly as possible. Recently I understood that plans are under way for the development by the owners thereof of the Hot Springs at Lakelse. Lakelse Lake is undoubtedly one of the beauty spots of British Columbia, and it is proposed to survey a much shorter route from Terrace to the lake and to maintain a first class motor road.

Bella Coola.

In the Bella Coola country, our grazing commissioner recently made a trip through to the head of the valley, with a view to ascertaining the character of the country. His report is of a most favorable nature, and I propose, if the opportunity is given me, to endeavor to secure an appropriation at the next sitting of the Legislature to begin work on the construction of a road into the interior.

At other points throughout the province an endeavor has been made to meet legitimate requirements with the means at our disposal.

There is no time when I have not kept to the fore the possibilities of Northern British Columbia in the Legislature, in the press, and upon the public platform. The resources of Northern British Columbia are better known today than they ever were and as member for this district I think I may share some responsibility for this. For example, in an address before the Victoria Board of Trade, I suggested that the members of the Boards of Trade of Vancouver and Victoria should visit the various parts of the province, with a view to understanding conditions. This course was pursued by the Boards of Trade and I think with much benefit to all concerned.

Larger Representation.

In conclusion let me say that no part of the province is undergoing more rapid development than is Northern British Columbia; its activities are becoming increasingly important, and if the opportunity is mine, it is my intention to insist in the next Legislature that a larger representation shall be given to Northern British Columbia than we have at present. While I honestly believe that everything that we could have done, under the circumstances, has been done, yet numbers always count, and if we can secure increased representation in the House, we are bound to be that much more effective.

Confidence in Government.

Election day is on December 1. Having been over all parts of this province many times during the past four years, I am in a position to state that each year there has been evidence of increasing confidence in the Oliver administration, and I have not the slightest doubt that on December 1 the people will vote for the continuance of the conduct of affairs by the present administration.

Sincerely yours,

T. D. PATTULLO.

The ladies of the Anglican Church held a very successful tea and sale of home cooking on Wednesday at the home of Mrs. G. A. McNicholl. Mrs. Woodward poured tea while those assisting in the tea room were Mrs. Duncan, Mrs. Willett, Mrs. Hunt, Mrs. Gibson, and Mrs. Clements. The sum of \$53.00 was realized.
