DAILY EDITION, Wednesday, Nov. 17, 1920.

Has Minister of Lands Been a Success?

Anyone travelling throughout British Columbia finds that the general opinion of the people is there never has been a minister of lands who has administered his office as well as has Pattullo. Take the matter of lumber. He put northern B. C. on the map insofar as the lumber business is concerned. True there is a slump just now owing to the drop in prices and the action of the Dominion Government in raising the freight rates, but that is only temporary.

It was in connection with aeroplane spruce production that Mr. Pattullo first made a mark. He forced owners to sell their timber for use in the war and established an industry in this part of the province which has had most far-reaching results. From now on the lumber industry will be one of the basic industries of the place. This was well expressed by Vice-President Hays of the Canadian National Railways when he was here recently.

Pulp and Paper Production in North.

In the matter of pulp and paper production, not only are these industries already operating successfully down the coast, but negotiations are under way for several more industries of a similar nature, one of which is to be at Kitimat and another in this neighborhood, particulars of which cannot be given just now. The waterpowers have all been surveyed and particulars in regard to limits and other details furnished, something which was never done by former administrations.

Lands Opened For Settlers.

An attempt is being made to show that the present Government is not responsible for the settling up of the lands, but that it has been done by private companies. This is very wide of the mark. The Raittenbury Lands and similar organizations have been forced to act through the pressure put on them by the Land Settlement Board and everyone knows the results in the Bulkley and Nechako valleys and adjacent districts. The minister of lands is the first efficient minister of his department. He has used energy combined with commonsense, the two requirements in addition to common honesty, which are necessary for the work. He is not spectacular but he does the work and gets results.

PRESENTATION TO MISS A. M. DUNLOP

A surprise party to Miss A. M. Dunlop was given last evening by Miss E. M. Earl at the home of Mr. and Mrs. Jack, Fifth Ave. E. The occasion was the presentation of a beautiful cut-glass bowl to Miss Dunlop by her fellow workers at the dry dock offices. A pleasant evening was spent at cards. After dainty refreshments a huge punch bowl was brought in and various toasts were proposed, followed by the singing of Auld Lang Syne.

Those present were Miss A. M. Dunlop, Miss Inez Ross, Miss E. LaTrace, Mrs. I. Moore, Mr. and Mrs. C. E. Cullen, Mr. and Mrs. S. K. Shane, Mr. and Mrs. Howard White, Mr. and Mrs. J. Jack, Harry Johnson, A. C. Lee, W. A. Macdonald, E. A. Donohue and Willie Lumbie.

"THE PAGAN GOD"

Oriental Drama at the Westholme Theatre Tonight Full of Mystery.

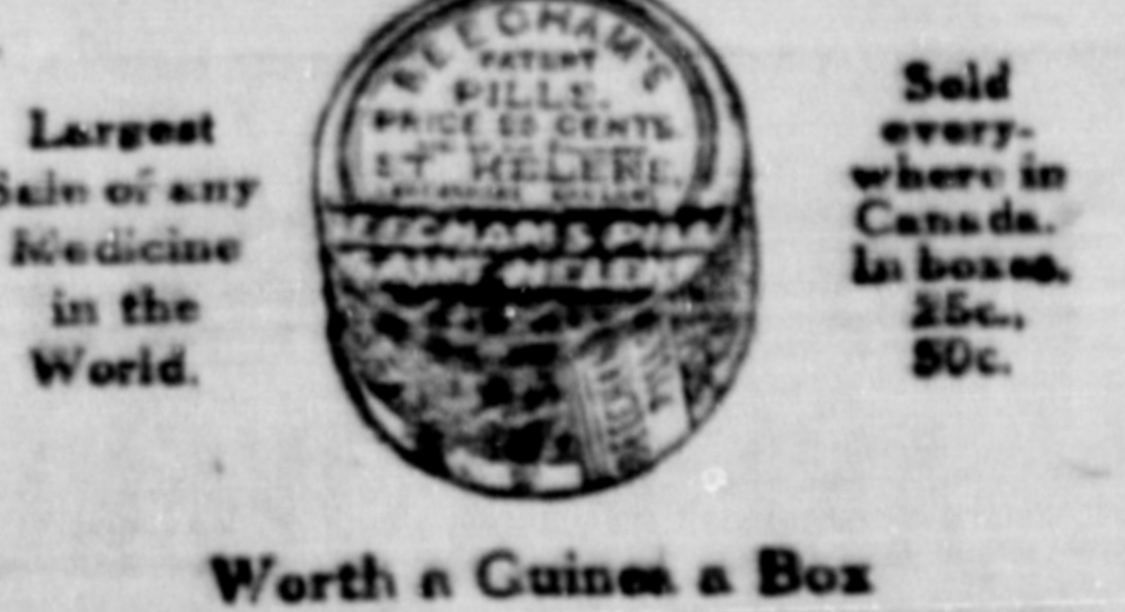

To his sweetheart, Beryl Addison, and to the American Consul, Bruce Winthrop, seemed an idler and a traitor to his country when he went to Chantung, joined the revolutionary "Tong of Freedom" and made love to Tai Hing, the Oriental enchantress. Did he hope that some day he would sit on the throne beside Tai Hing? Was this why he played the renegade, deserted his sweetheart and became a "hatchetman" of the "Tong"? Or was it to learn the secret carried by the Jade Buddha which was hid in the chamber of the Tong?

"The Pagan God," a gripping drama of a Mongolian conspiracy, with H. B. Warner in the role of the American diplomat, will be seen at the Westholme tonight.

PRINCE RUPERT TIDES

Table with tide information for Wednesday, November 17 and Thursday, November 18, including high and low water times and levels.

The time used is Pacific Standard, for the 129th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same.

MINERAL ACT.

Certificate of Improvements. NOTICE.

"Copper Cliff," "Copper Cliff No. 1," "Copper Cliff No. 2," and "Copper Cliff No. 3" Mineral Claims situate in the Naas River Mining Division of Cassiar District. Where located—Kitsault River, Alice Arm.

TAKE NOTICE that J. George A. Young, Free Miner's Certificate No. 36595-C, acting for myself and as agent for Joseph Wells, Free Miner's Certificate No. 40651-C, and Arne Davidson, Free Miner's Certificate No. 40628-C, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 6th day of November, 1920.

Two years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, or the District Forester, Prince Rupert.

CONFIDENCE IN CANDIDATE IS EXPRESSED

Terrace Liberals Elect Officers and Predict Overwhelming Majority for Mr. Pattullo.

TERRACE, Nov. 17.—At the annual meeting of the Terrace Liberal Association held here on Monday, the following were elected for the ensuing year:

- President, J. B. Campbell. Vice-president, Henry Frank. Sec.-treas., E. T. Kenny. Executive—L. H. Kenny, C. A. Waite, John Vigor, V. Soucie, W. E. Smith, J. Cook, S. Dobie, and E. E. Chandler.

Confidence was expressed in the Liberal candidate, Hon. T. D. Pattullo, and it was confidently predicted that he would secure an overwhelming majority in that district on December 4.

Mining News

Princess Royal Island

Recent mineral discoveries on Princess Royal Island have caused excitement and it is anticipated that considerable development will soon be under way. Claims that were staked last July and August when the rush first began have far exceeded expectations and mining engineers who have inspected the properties have reported very favorably on them. Several options have been offered, but the discoverers have preferred to carry on themselves rather than accept them. Old prospectors who know the coast say that there are showings there more favorable than that at the original Surf Inlet mine. The first strike was made by D. Gordola and D. Koski and other well-known Swanson Bay citizens have staked.

Rossland Wants Mill

Rossland, at one time British Columbia's leader in metalliferous production, still remains quiet, with a few men working at the various consolidated properties and a crew of ten men at the Velvet, several miles down the Great Northern from town. Rossland's hope for the near future centres very largely upon action taken by the Trail Consolidated with regard to the construction of a mill for the handling of the lower grade ores from the camp. Plans are already said to be well advanced in this end and the Heinze ranch below Rossland and above Trail is the likely site. On account of the high costs it is unlikely the big firm will start work immediately on this project.

Babine Bonanza

J. D. Galloway, resident mining engineer at Hazelton, recently visited the Babine Bonanza and reported an excellent showing of ore where the tunnel cut the vein. Spokane directors also visited the property lately and decided to carry on the work by hand, not waiting for the erection of the concentrator as Mr. Cronin had suggested. Owing to the condition of the roads at present it will be impossible to take heavy machinery over there for some time.

Ten Years Ago in Prince Rupert

November 17, 1910

The Phoenix Theatre has closed down and the sheriff took formal possession of the property yesterday.

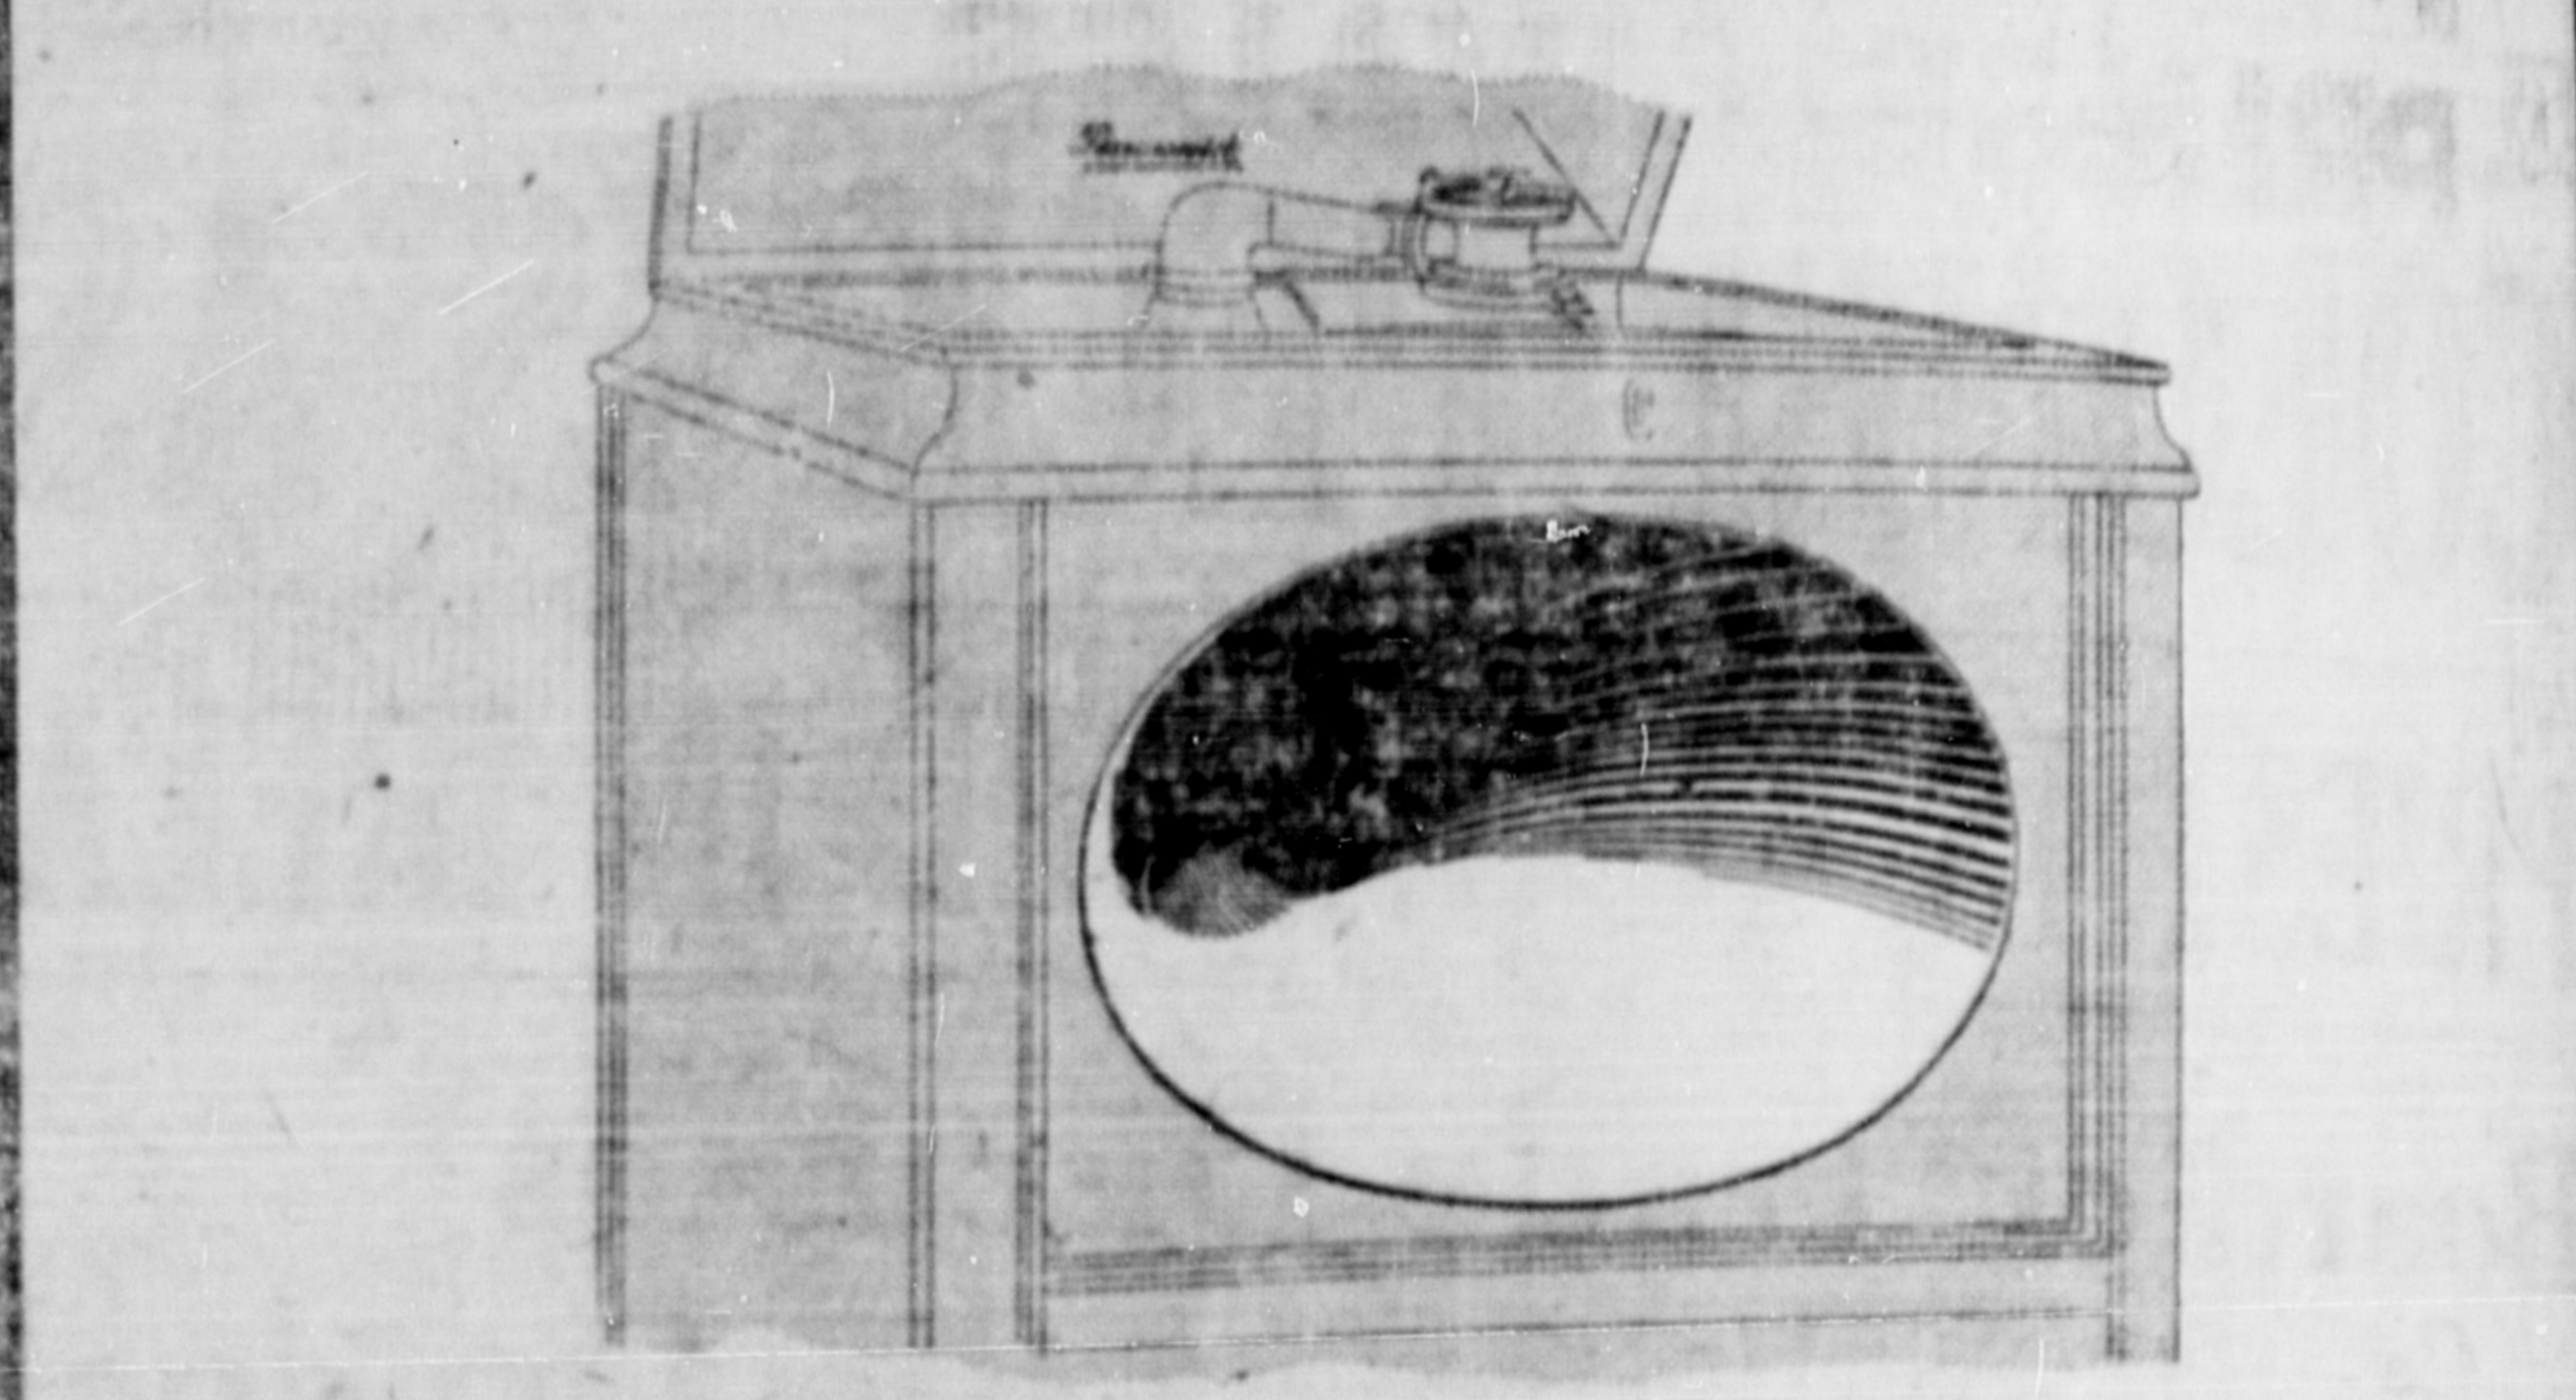

H. F. McRae addressed the Presbyterian Church Club on "New Thought" last evening and Rev. F. W. Kerr told the interesting story of St. Francis of Assisi. Dr. W. T. Kergin, Frank Poole, Alderman Naden, Mrs. Phipps, Mrs. D. McLeod, Mrs. Dunlop and Messrs. Cowal and Poole took part in the discussion.

Miss McTavish is on her way to Prince Rupert to become matron of the new General Hospital.

H. O. Butler has returned to the city after spending four months travelling in Alaska and the Yukon.

H. F. McRae is building a new two-story building on Second Avenue.

The Brunswick ALL PHONOGRAPHS IN ONE

What Shape is a Horn?

Did you ever hear of a horn or a megaphone that was square? Do you know why they never send water through a square pipe? Every phonograph or talking machine has a "horn," but they call them "amplifiers." They are really the megaphones of the machine. It is their duty to round out the tone and send it to the listeners. Now what shape do you think this "horn" should be to give the best "tone"—and what do you think it should be made of—resonant, vibrating metal or wood—built on the violin principle? Before you buy any phonograph, find out the shape of the horn and what it is made of. One of the secrets of the Brunswick's wonderful tone on ALL records is the exclusive patented OVAL horn chamber and throat—built entirely of wood, like a fine violin. It actually DOES eliminate all harshness, all the stridency, and that "tinny" timbre that we have thought a necessary evil of the old style "Talking Machines." All we ask is that you use your own ears—your own judgment—see this wonderful improvement with your own eyes—compare it with anything you like—at any price. You cannot afford to make a mistake, and if you're nothing to be sure.

Remember, The Brunswick Oval Horn Is Built Entirely of Wood.
