Are The Four Fruits Used in Making "Fruit-a-lives"

"FRUIT-A-LIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-lives because I have tried other remedies and they did me no good". On the other hand, the fact that "Fruit-a-lives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. "Fruit-a-lives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 50c. a box, 6 for \$2.50, trial size, 25c. U. S. HAVE A NEW TYPE OF SUPPLY SHIP

Paris, July 17.—The special correspondent of "Le Journal," who has paid a visit to one of the first American vessels of a new type which have just arrived at a French port, writes:—The "J" is not, properly speaking, a ship of war. Our Allies have baptised the type "full ship," and its construction is due to the belief that it is indispensable for squadrons far from their base to be accompanied by vessels capable of furnishing them, when at sea, before, during, and after a battle, with all the supplies they need—life-saving apparatus, food, coal, and parts for repairs. Their powerful wireless telegraph installation enables them to send out long-distance calls. The means of propulsion is a novelty, and very considerable speed can be obtained. Their strong armament renders them capable of defending themselves vigorously against a sudden attack. On deck are numerous electric cranes pivoting on turntables, permitting of the speediest loading or unloading of stores or war material. —Reuter.

BONAR LAW TELLS OF SHIPPING PROFITS

In a recent discussion in the British House of Commons on the clauses of the Finance Bill, raising the excess profits duty to 80 per cent. and differentiating against shipping, Mr. Bonar Law, while attributing no blame whatever to shipowners, mentioned as proof of their enormous profits his own experience. He had invested £8,110 in 15 different shipping companies under the management of seven different owners. A 5 per cent. profit, which he would have been glad to get in ordinary times, would have given him £405. He actually received £3624 for 1915 and £3,847 for 1916 after excess profits had been paid. One of these steamers had been sunk. He had £300 in it, and after these handsome dividends he had received £1,000 in compensation.
