

HEALTHIEST ONE IN THE FAMILY

Sign Of Dropsy And Kidney Trouble
Since Taking "FRUIT-A-TIVES"

HATTIE WARREN
Port Robinson, Ont., July 8th, 1915.
"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with kidney disease. The doctor said she was threatened with dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives.' She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her face began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-tives' and would never be without them."

THE CRYING NEED.—Would-be-ratifier: "Do you know of any pill to cure a healthy appetite?"—The Passing Show, London.

GERMAN TORPEDO SUPPLY WEAKENING

Washington, July 19.—There is reason to believe that the German torpedo supply is weakening, says a statement issued at the headquarters of the Navy League here.

The increasing frequency with which press dispatches report merchant ships as successfully dodging German torpedoes, says the statement, suggests to the technically trained mind that the German torpedo is deteriorating in speed, and hence in accuracy of fire at long range.

At the outset, the statement continues, the Germans were extremely careful to conserve their torpedoes. Merchant ships were sunk by gunfire whenever possible. But the arming of merchant ships and the constant improvement in the Allies' system of defence against submarine attack has driven the submarine under the water and they are now forced to use torpedoes in almost every attack. The increase in the number of submarines has further added to the strain upon the German stock of torpedoes.

U-Boat Warfare Weakens.

An analysis of reports on submarine attacks now indicates that this unprecedented expenditure of torpedoes is beginning to tell upon the effectiveness of the U-boat warfare. The Germans are pressing their submarine campaign with all possible vigor and the number of attacks on merchant ships appears to be increasing. Also the zone of submarine operations is constantly widening. Yet this increased fury with which the U-boat warfare is being waged has failed to increase the number of merchant ships sunk. The Germans apparently are being forced to constantly greater efforts to maintain their average of sinkings and even so are slipping back slightly.

The explanation of this offered by certain naval experts here is that the Germans are being so pressed for time in the construction of torpedoes that they can no longer maintain their speed and their accuracy of fire. It is estimated that the German torpedo has lost nearly ten knots in speed from the standard torpedo used at the outset of the war.

Short of Materials.

It takes, normally, six months to construct a torpedo and costs thousands of dollars. There also is a chance of Germany running short of some material essential in their manufacture. Whether this has occurred is not known, but the conclusion has been reached that the individual German torpedo is losing in efficiency.

PRINCE RUPERT WATERFRONT LEASES.

Sealed tenders for the purchase of lots One (1), Two (2) and Five (5), Block F, in the City of Prince Rupert, will be received by the Minister of Lands, at Victoria, B. C., up to 12 o'clock, noon, on Monday, August 27th, 1917.

Tenders may cover one or more lots. Term of lease, 50 years. Certified cheque covering six months' rental must accompany each tender, cheques of unsuccessful tenderer to be returned immediately.

The highest or any tender not necessarily accepted. Tenderers must state what business they are engaged in and must designate clearly just what use they intend to make of the lot or lots applied for; how much they intend to expend in improvements, in what manner and in what time.

The following, amongst other, conditions will be imposed under the leases:—

(a) The front line of any wharf erected on any of these lots must conform to plans to be seen at the office of the Government Agent at Prince Rupert or in the Department of Lands at Victoria, B. C.

(b) Rent shall be payable in quarterly instalments in advance.
G. R. NADEN,
Deputy Minister of Lands.

Where You Cannot Prophecy — PREPARE !

NOT even the best-informed man in government or business circles dares to attempt a prophecy of conditions after the war. We hope for the best—meantime wise men are preparing now for anything.

How ?

By regulating their expenditures according to their actual needs rather than by their prosperity—by husbanding the surplus—and by investing to the limit in Canadian War Loans that help so much to maintain present prosperity.

Money saved and loaned to Canada by Canadians is a two-fold safeguard for the future. The lenders will benefit directly from the excellent interest return and absolute security—and indirectly because the interest thus kept in Canada will help to keep business good after the war.

Canadian War Savings Certificates are issued in denominations of \$25, \$50 and \$100, repayable in three years. At the purchase prices of \$21.50, \$43 and \$86 respectively, they yield over 5% interest. Buy them at any Bank or Money Order Post Office.
