UNITY

Lord Robert Cecil has announced in the British Parliament that the Ministry has informed the Russian Government of its willingness to enter into a discussion looking to a possible revision of the war aims of the Entente Allies. Readiness to consider every change in the situation cannot fail to strengthen the feeling of unity, says the Toronto Globe, among nations fighting in a common cause. So long as it is made clear and emphatic that no proposal will be considered that would leave Germany in a position to again assail the peace of the world, full and free discussion should receive every encouragement. Not only the situation of any of the Allied Governments may change at any time, but the outlook and the vision of a people may promote new aims. New objective points may supersede those once thought ultimate and final. Russia has herself undergone a sociological transformation that has given her people a broader horizon. National achievements are seen in altered perspective. The essentials of a few years ago may seem of little account and new avenues of advancement may be opened.

Changes of a similar nature though less striking have been taking place in the popular outlook of other allied nations. It is essential to a proper understanding that frequent discussions be held. The determination to win the war must never change nor waver, and it will be best sustained by a continuous interchange of views and opinions. The suggested policy of frequent conferences cannot be allowed to interfere with military activity. In suppressing the menace of civilization, there is no room for discussion. The duty is clear, and the way has been determined by outside aggression. But the nations united by a common menace and co-operating in a common cause can best promote that cause by a perfect and continuous understanding. There has been in some quarters a fear of free discussion regarding the outlook and the aims of the nations fighting in the cause of liberty. Some thought

a spirit of compromise might grow out of such conferences. This is without foundation. Republics and monarchies can unite in a cause that greatly transcends all questions of governmental forms or political organizations—the cause of justice.

NOTES AND COMMENTS

One of the allies on the Entente side, of whom little has been heard of lately, is Hussain the First, "King of the Hejas," former Grand Sherif of Mecca and the most powerful Prince of Western and Central Arabia. About a year ago, the Turkish forces in Arabia were defeated by this Arab chief, and the suzerainty of the Turk decisively thrown off. Germany's hopes of a "Holy War" being started by the Moslems against the Entente have come to nothing. Even the Emperor William turning Mohammedan failed to appeal to the true followers of the Prophet.

The peculiar situation of soldiers in the trenches holding a meeting in the face of the enemy to discuss whether or not they will obey orders, would be laughable, were it not tragic. As a result of their deliberations, the enemy look the advantage to break through, taking a few thousand prisoners. It is to be hoped that the Extremists who were confabulating were among the prisoners. They will doubtless by this time have learnt the advisability of obeying orders.

"The peace Germany desires to conclude is that of a victor and it is the Allies who must hereafter make overtures to end the war." To this statement of the new German Chancellor, there can be but one answer. And the overtures which the Allies can only make are only to be found in a continuance of their offensive. Germany's desires and those of the Allies are still at variance, and apparently cannot be reconciled until the Central Empires are decisively and forever defeated.

Lighten the Day's Work by eating food that does not use up all the vital powers in an effort to digest it. Every particle of **Shredded Wheat Biscuit** is digested and converted into healthy tissue and caloric energy. In the present food crisis every housekeeper and mother should demand bread that is 100 per cent. whole wheat. Shredded Wheat Biscuit is made of the whole wheat grain prepared in a digestible form. Better than meat, or eggs, or potatoes, and costs much less. For breakfast or any meal with sliced bananas, berries or other fruit.

association out of the calamity of war are considered natural because Mother gets them, and in Quebec it is no disgrace to speak treason because the Government is sympathetic of obedient.

From such a combination the ordinary citizens of Canada have little to expect, and from the C. P. R. the G. T. P. will get nothing in the line of government work or war business. All money expended by the Government of Canada will so far as possible be diverted to the C. P. R. or members of the Canadian Manufacturers' Association.

Arising out of the exigencies of war and the requirements of the Imperial Government an Imperial Munitions Board for Canada had to be appointed, of which Sir Joseph Flavelle, of bacon fame, and doubtless a member of the Canadian Manufacturers' Association, is chairman, and of course the C. P. R. had to be considered. The British Columbia representatives of the ship building end of that board are Mr. Buchart and Captain Troup. Both of these men are very closely associated with the C. P. R. Mr. Buchart in a business way and Captain Troup has been in its employ for many years. Consequently, all shipbuilding contracts for the Im-

"WATER ACT, 1914."

BEFORE THE BOARD OF INVESTIGATION

In the Matter of all Streams in the Hazelton and Fort Fraser Water Districts.

A MEETING of the Board of Investigation will be held at the Court-house at Hazelton on Monday, the 23rd day of July, 1917, at 10 o'clock in the forenoon.

In the Matter of all Streams in the Prince Rupert Water District.

A meeting of the Board of Investigation will be held at the Court-house at Prince Rupert on Wednesday, the 25th day of July, 1917, at 10 o'clock in the forenoon.

At these meetings all statements of claim to water privileges under Acts passed before the 12th day of March, 1909, on any of these streams, all objections thereto, and the plans prepared for the use of the said Board, will then be open for inspection.

All persons interested are entitled to examine these, and to file objections thereto in writing if they deem fit.

Objections will be heard forthwith if the party objected to has received sufficient notice of the objection.

The Board at the said meetings will hear the claimants, will determine the quantity of water which may be used under each record and the further works which are necessary for such use, and will set dates for the filing of plans of such works and for the commencement and completion of such works.

And whereas there may be persons who, before the 12th day of March, 1909, were holders of water records on the said streams and yet have not filed statements of their claims with the Board of Investigation, such persons are required to file, on or before the 15th day of July, 1917, a statement, as required by section 294 of the "Water Act, 1914." The forms (No. 50 for irrigation and No. 51 for other purposes) may be obtained from any Government Agent in the Province.

The claims of riparian proprietors who have filed, as required by section 6 of the "Water Act, 1914," statements of claim to waters of any of the said streams will be heard at the same times and places.

Dated at Victoria, B. C., this 7th day of June, 1917.

For the Board of Investigation,
J. F. ARMSTRONG,
Chairman.
