

HEALTHIEST ONE IN THE FAMILY

Sign Of Dropsy And Kidney Trouble Since Taking "FRUIT-A-TIVES"

HATTIE WARREN Port Robinson, Ont., July 8th, 1915.

"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with Kidney Disease. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her little body began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-tives' and would never be without them."

MINERAL ACT

NOTICE TO DELINQUENT PARTNER
To C. W. Calhoun:
Take notice, whereas I have done and caused to be done assessment work on the Midnight Fraction mineral claim, situated on the Illiance river, about fourteen miles from the head of Alice Arm, in the Skeena mining division of Skeena district, assessment work for 1914, 1915, and 1916, and have paid for said work and recording same the sum of \$307.50. Unless you pay me the sum of \$109.50, for your share of the said assessment work, together with the cost of this advertisement, I shall, at the expiration of ninety (90) days from the date hereof apply to the mining recorder at Prince Rupert, B. C., to have your interests in the Midnight Fraction mineral claim vested in me, in pursuance of the provisions of the Mineral Act.
Dated at Prince Rupert, B. C., this 11th day of April, 1917. Jy 11

THE PRINCE RUPERT SHIPBUILDING PLANT

(Continued from Page two.)

perial Munitions Board, have been, and probably will be, let in Vancouver, Victoria and New Westminster, the Pacific headquarters of the C. P. R., and all freight business connected with this industry logically should go to the C. P. R., as its rightful perquisite. Although the Prince Rupert shipbuilding plant could turn out half a dozen ships a year, yet that is a mere trifle and will not win or lose the war any way, but if all the business is confined to the south it will help very materially to build up Vancouver and the C. P. R. at the expense of Prince Rupert and the G. T. P.

These public spirited, all powerful organizations if called upon could promptly hold up their left hands (I believe Sir Joseph is now doing so) and avow that their dealings are clean, for they are careful not to let their left hand know what their right hand doeth. The visible is very nicely polished over with patriotic whitewash and ostensible public service to be seen of men and the bad spots are plastered up with excuse putty. They tell us that it costs too much to send steel to Prince Rupert, being so far from the source of supply. But Rupert has the same terminal rate as Vancouver. The only difference being that the G. T. P. would get the freight instead of the C. P. R., which is horrible to contemplate. They also tell us, that is the Imperial Munitions Board, that we have no fir here and that the expense might be a little greater. We reply that we have much better than fir in yellow cedar, and that the cost of producing the same ship in Prince Rupert, even though we have to bring in the fir, is about 10 per cent. less than in any Vancouver plant. Then they are driven to argue that the cost of inspection would be greater. The creators of such vital arguments surely deserve knight-hood, or a night-cap. To the people of Prince Rupert it looks ridiculous and perverse, but we wonder if the people of Canada will wake up to the fact that it is serious. The Prince Rupert district has recruited upwards of 2,000 men and her population now is small. We have been loyal. We have borne shameful discrimination and designed isolation with patience, but we are now satisfied that patience is no longer a virtue and that true patriotism may draw a two-edged sword, one against Prussianism and the other against dictator rule and graft at home. They are equally ugly, frightful and merciless and should be met with the same weapons.

There can be no answer to the facts. The British Empire needs ships, wood or steel. The Prince Rupert plant could have turned out twenty since the war started. It has been idle. This fact has been known to the Government of Canada and in the last analysis that government must be held responsible. Let the Government explain why the Empire's work has not been done. Why this superb plant stands a great empty monument to its weakness and incompetence, or to its treasonable indifference, in times when every ship means so much. Truly, governments have become the despair of the people. We do not believe in Germany's government, and we are not satisfied with our own. Surely the honest, serious-thinking people of Canada will see that this condition of affairs is not merely a local calamity, but a matter of the utmost importance to us all. How can we be optimistic, enthusiastic or proud of our country under such treatment and conditions, while this great empty ship-shed stands a monument to dead patriotism and the waves lisp and the breezes whisper "shame."—W. Where You Cannot Prophecy — PREPARE !

NOT even the best-informed man in government or business circles dares to attempt a prophecy of conditions after the war. We hope for the best—meantime wise men are preparing now for anything.

How ?

By regulating their expenditures according to their actual needs rather than by their prosperity—by husbanding the surplus—and by investing to the limit in Canadian War Loans that help so much to maintain present prosperity.

Money saved and loaned to Canada by Canadians is a two-fold safeguard for the future. The lenders will benefit directly from the excellent interest return and absolute security—and indirectly because the interest thus kept in Canada will help to keep business good after the war.

Canadian War Savings Certificates are issued in denominations of \$25, \$50 and \$100, repayable in three years. At the purchase prices of \$21.50, \$43 and \$86 respectively, they yield over 5% interest. Buy them at any Bank or Money Order Post Office.
