## It-a-lives Again Proves Its Extraordinary Powers

LONDON, QUE., March 2nd, 1915.  
I have received the most wonderful relief from taking "Fruit-a-lives".  
I suffered for years from Rheumatism, a change of life, and I took every remedy obtainable without results. I tried "Fruit-a-lives" and it was the only medicine that really did me good. Now I am entirely well—the Rheumatism has disappeared, and the terrible pains in my body are all gone. I hope that others, who suffer from such distressing diseases, will try "Fruit-a-lives".

### MINERAL ACT

**NOTICE TO DELINQUENT PARTNER**  
C. W. Calhoun:  
Take notice, whereas I have done and caused to be done assessment work on the Midnight Fraction mineral claim, situated on the Blanche river, about fourteen miles from the head of Alice Arm, in the Skeena mining division of Skeena district, assessment work for 1914, 1915, and 1916, and have paid for said work and recording same the sum of \$307.50. Unless you pay me the sum of \$102.50, for your share of the said assessment work, together with the cost of this advertisement, I shall, at the expiration of ninety (90) days from the date hereof apply to the mining recorder at Prince Rupert, B. C., to have your interests in the Midnight Fraction mineral claim vested in me, in pursuance of the provisions of the mineral act.  
Dated at Prince Rupert, B. C., this 11th day of April, 1917.

## HUNS LOSE COMMAND OF LAKE TANGANYIKA

London, July 19.—The first despatch of the High Commissioner for South Africa to be gazetted, covering the operations in Rhodesia since August, 1914, tells for the first time the stirring story of how, through enterprize, courage and bulldog pertinacity, German command of Lake Tanganyika was overthrown.

The scheme was approved in April, 1915, of sending from England to Cape Town, and thence by rail, road and river to the lake, two motorboats, designed to outclass the three enemy ships on Tanganyika. The two motorboats, named the Mimi and the Toutou, arrived at Cape Town, under command of Commander Simpson on June, 1915, and were launched on Lake Tanganyika on the 25th of December. The Germans were probably acquainted with the scheme, but dismissed it as a harebrained venture. The journey up country included 150 miles of haulage over atrocious roads at altitudes ranging from 2,000 to 6,000 feet, and thence on railroad trucks to the Lualaba River, where they were floated through

shoals abounding in dangerous rocks. So shallow, indeed, was the river that barrels had to be lashed to the motorboats in order to reduce their draught.

### Great Shortage of Water.

The expedition was hampered by tropical heat, by dust and by shortage of water. The latter deficiency was so serious that at times the water for washing, and even the drinking water, was voluntarily given up to supply the traction engines. All competent judges vetoed the journey as sheer madness. Nevertheless it succeeded.

On the third day after launching the motorboats on Lake Tanganyika the German gunboat Kingans was attacked, and surrendered, whereupon she was repaired by her captors and renamed the Fifi. The second German gunboat fought the Fifi and Mimi on the 9th of February. It was a three hours' running fight, but by skillful manoeuvring the British boats got within range, scored many hits, and finally sank the German vessel. The third gunboat was thereupon scuttled by her crew, after she had been bombed by a Belgian airplane, thus ending German supremacy on Lake Tanganyika, which had been established for many years.

The despatch draws attention to Rhodesia's remarkable achievement, with her territory of 450,000 square miles, a native population of 1,600,000, and barely 30,000 Europeans, in securing her borders against attack within nine months after the outbreak of the war, and, in addition, furnishing several overseas regiments, so that by the middle of 1916 40 per cent. of the male whites of the Protectorate were in active service.

## Help Canada Maintain Her Financial Freedom!

Do Your Share towards Financing the War with Canadian Savings Rather than with Outside Capital.

THE problem of meeting the enormous cost of this war is two-fold. Not only must Canada get the money—most of it, of course, as loans—but she must get as much of it as possible here in Canada.

We can carry the war-debt if the bulk of the interest goes to Canadians, and so is used again in the country's development. But it will be a serious matter for us if a large proportion of the interest has to be sent outside the Dominion.

For the sake of our own and our children's future this drain on our resources must be avoided! Canada's financial freedom can and must be maintained! An average saving of 15 cents a day, invested by each man, woman and child in Canada in War Savings Certificates, would enable us to carry the whole cost of the war. To approach this average, hard work, thrift, self-denial and sacrifice are required of every citizen.

For each \$21.50 you lend the Government now, you will receive \$25.00 in three years—or you can get your money back at any time. Certificates are issued in denominations of \$25, \$50 and \$100, and may be purchased at any Bank or Money Order Post Office.
