

MISERABLE FROM TOMACH TROUBLE

Wretched Until He Started To Take "Fruit-a-lives"

504 CHAMPLAIN ST., MONTREAL.

For two years, I was a miserable sufferer from Rheumatism and Stomach Trouble. I had frequent Dizzy Spells, and when I took food, felt wretched and sleepy. I suffered from Rheumatism dreadfully, with pains in my back and joints, and my hands swollen.

A friend advised "Fruit-a-lives" and from the outset, they did me good. After the first box, I felt I was getting well and I can truthfully say that "Fruit-a-lives" is the only medicine that helped me. LOUIS LABRIE.

Box, a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

ATTACHED LICENSES TO SALMON CANNERIES

(Continued from Page two.)

venting the building of other canneries in District No. 2, it completes the doctrine of the Divine Right of the canners to all the salmon that God placed in this district. They alone can can. This is some monopoly, if they had nothing else, but to prevent one cannery from competing against the other on the open market for the fish the government has said "We will give No. 1 Cannery fifty slaves, and No. 2 Cannery 75 slaves (because No. 2 Cannery has a larger floor) and each of these canneries shall enjoy the fruits of their own slaves." The only necessary link to complete the chain of absolute slavery is supplied by the economic whip which compels Mr. Jap and Mr. Indian to catch fish in order to live. This is sure some system. The Grits planted it; the Tories watered it, and God and the fishermen gave the canners the increase. But now that the present government has said "it is a vile system and shall end with 1917, it is difficult to understand why any association of respectable citizens such as the B. C. Canners' Association doubtless is, should fight to have it continued. Apparently they do not like emancipation.

There can be no reason why the salmon industry should not be handled as the halibut industry is on an open competitive market. Any person should be entitled to catch salmon, and if he has not got sufficient money to operate a cannery he should be entitled to catch fish, subject to proper regulations for the protection of the industry.

THE FISHERY INVESTIGATION

There are several points of importance to be noted in regard to this commission.

1. It has been appointed at the instance of the British Columbia Canners' Association.

2. It is appointed to investigate the salmon fisheries only.

3. Its jurisdiction is limited to investigating salmon conditions and the financial conditions in District No. 2.

Inasmuch as this investigation is limited to District No. 2, why all this blare of trumpets and taking of evidence in New Westminster, Vancouver and at other points outside of District No. 2? Why all this hard luck talk of loss of money on the Fraser where they have three lean years and one fat year, and where the salmon have been exterminated by both American and Canadian fishermen, where the spawning grounds have been cut off by mill dams, railway rock slides, etc., and where no adequate spawning grounds or hatcheries have been provided.

The canners of the south have sowed to the wind and are reaping the whirlwind, but why should District No. 2 be made the goat? Wherein is Northern British Columbia responsible for the misdeeds on the Fraser?

Surely it is logical to expect this commission to confine its energies to the investigation of the matters for which it has been appointed and devote its attention exclusively to District No. 2.

On the Skeena and generally throughout District No. 2, canneries have been profitable—we contend unreasonably so—and have heretofore enjoyed unreasonable protection at the hands of the government. The Grits handed them a very lucious plum by limiting cannery licenses and granting attached fishing licenses to each cannery. The Conservatives have permitted them to enjoy these fruits unmolested until the year 1918.

If these cannerymen have a tale of woe to unfold in regard to conditions in District No. 2, we will all be pleased to listen, but we should not be obliged to travel outside this district to hear these complaints. The issues should be tried where they arose. This is a good British principle and we respectfully request this commission to confine its hearings to District No. 2. On the trial of cannery conditions in District No. 2, it is manifestly improper to adduce evidence in connection with the prodigal brother on the Fraser—that is another question and we may look for another commission to deal with that matter, sometime hence. One thing at a time is a very sane rule.—W. E. WILLIAMS.

Pay Your Debt To Your Defenders

Turn Your Luxuries Into Comforts For Those Who Have Sacrificed Most.

"Self-sacrifice, self-denial and service lie at the basis of the highest personal and national development."

—Sir Thomas White, Minister of Finance.

IS it nothing to you that men from all round you have sacrificed home and salary, safety and life, to defend your home as well as their own?

Is it nothing to you that their wives and families tremblingly scan each casualty list, and pale at the step of the postman or telegraph messenger?

Can you see others giving their dearest, without feeling that you must do something yourself? Do you wonder what to do?

You can at least save—and lend your savings to the nation. Canada needs every dollar her loyal sons and daughters can spare, to meet the growing expenses of the struggle.

Every dollar you invest in Canadian War Savings Certificates helps the nation to deal generously with those who are defending you.

Certificates in denominations of \$25, \$50 and \$100, repayable in three years, may be purchased at any Bank or Money Order Post Office at \$21.50, \$43 and \$86 respectively. This means over 5% interest—making them a profitable as well as a patriotic investment.
