

"I FEEL LIKE A NEW BEING"

"FRUIT-A-TIVES" Brought The Joy Of Health After Two Years' Suffering

MADAM LAPLANTE

35 St. Rose St., Montreal. April 4th.
"For over two years I was sick and miserable. I suffered from constant Headaches, and had Palpitation of the Heart so badly that I feared I would die. There seemed to be a lump in my stomach and the Constipation was dreadful. I suffered from Pain in the Back and Kidney Disease."

I was treated by a physician for a year and a half and he did me no good at all. I tried "Fruit-a-tives" as a last resort. After using three boxes, I was greatly improved and twelve boxes made me well. Now I can work all day and there are no Headaches, no Palpitation, no Heart Trouble, no Constipation, no Pain or Kidney Trouble and I feel like a new being—and it was "Fruit-a-tives" that gave me back my health".

THE PIONEER OF CANADA'S RAILWAYS

A few days ago a letter was sent to the Canadian press by Mr. A. W. Smithers, chairman of the London board of directors of the Grand Trunk Railway of Canada in which he pointed out what in his opinion were rather unfair strictures regarding the Grand Trunk Railway Company, contained in the recent majority report of the Royal Commission appointed to investigate into the situation of the railways in Canada. The Journal of Commerce in Montreal, discussing the stand taken by Chairman Smithers in his letter, acquiesces with the fairness of his point of view. Notwithstanding all that has been said of what the Grand Trunk has done and has not done—for the Grand Trunk like every other corporation has received much criticism—the fact remains that this pioneer railway company of Canada has performed a very large and important duty in the development of Canada.

It points out that were it necessary to show the benefit which has arisen from the operations of this company, to Canada on the one hand, and to the investors in the company on the other hand, it would be undeniable that the greater gainer was the Dominion.

The present troubles of the Grand Trunk, the Journal of Commerce adds, have arisen, not from the operation of its original system, but from the burden which it so courageously assumed in the scheme of a transcontinental railway.

During the discussion of this project in the Dominion Parliament, it was often treated as one in which the Grand Trunk Railway Company were receiving great favors at the hands of the people of Canada. It is well that the public should be kept in mind of this fact, when it is so plainly apparent that instead of the company receiving favors beneficial to it, it had particularly severe conditions imposed upon it. There can be no doubt that when the arrangement was entered into fourteen years ago, very heavy responsibilities were laid upon the company, which instead of being a gain, were rather a loss.

Concluding its comment, the Journal of Commerce is of the opinion that there need be no fear in the minds of the directors of the company that the Canadian people will be unmindful of the great services, no matter what railway policy may be adopted, which the Grand Trunk Railway Company has rendered to Canada.
