A NEW APOLOGIST FOR THE KAISER

London, August 7.—Reuter has received from Holland some particulars of a remarkable article, the second of a series, which appeared in the "Berliner Tageblatt" of Sunday last from the pen of Prince Lichnowsky. In this article the ex-Ambassador to London deals with Germany's one-man government system. He points out that the time has now passed for the destinies of a great country like Germany to be in the hands of one man, who may not even be first-class, and whose power is so great that he can make peace or war on his own account. Some people who wish for a continuance of the present system may contend that in the end he is controlled by the Emperor, but the Prince argues that the Emperor is far more constitutional than is commonly supposed and that in the course of a long experience at the Foreign Office and in the Diplomatic Service, apart from a few impulsive telegrams, he has never known the Kaiser to act independently of his Chancellor or against his advice. Prince Lichnowsky points out

PRINCE RUPERT WATERFRONT LEASES.

Taken by tunnel from east end of Lake three miles northerly direction from Lot 29, Butedale, on Fraser Reach and will be used for power purposes upon the land described as in application to lease at east end of Lake on Fraser Reach.

Objections to the application may be filed with the said water recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. The fact, therefore, remains that the Chancellor practically governs alone. This is additionally proved by the fact that if his decision is wrong he alone and not the Sovereign bears the blame, and has to resign, as may very likely be the case on this occasion. The advantages of constitutional government by the Throne, Ministers, and people's representatives, acting with each other, and declares that a change to this effect in Germany is imperative and will come whether or no.

Prince Lichnowsky goes on to say that this democratization of Germany will necessarily alter existing relations between the Empire and the Federated States, and that the latter will have to give up some privileges just as every citizen will have to relinquish something in favor of the new order. He adds:—"They may not like it, but they will have to lump it, and the Empire will have power to compel them, as one-third of the national fortune is by now mortgaged to it. The Empire today is something more than a perpetual alliance of Sovereign States. Nothing in political life remains stationary, and the Empire must either develop to its full extent or the country will fall to pieces as in 1806." The article concludes:—"Perhaps we shall arrive at democratization of our diplomatic service also. Would it thereby be improved, or will there be no further need for one under the new order? In either case I would warn any young frined of mine in search of a profession to leave diplomacy alone. Be what you will, only not a diplomat."

Where You Cannot Prophecy — PREPARE !

NOT even the best-informed man in government or business circles dares to attempt a prophecy of conditions after the war. We hope for the best—meantime wise men are preparing now for anything.

How?

By regulating their expenditures according to their actual needs rather than by their prosperity—by husbanding the surplus—and by investing to the limit in Canadian War Loans that help so much to maintain present prosperity.

Money saved and loaned to Canada by Canadians is a two-fold safeguard for the future. The lenders will benefit directly from the excellent interest return and absolute security—and indirectly because the interest thus kept in Canada will help to keep business good after the war.

Canadian War Savings Certificates are issued in denominations of \$25, \$50 and \$100, repayable in three years. At the purchase prices of \$21.50, \$43 and \$86 respectively, they yield over 5% interest. Buy them at any Bank or Money Order Post Office.
