

# THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since Taking "FRUIT-A-LIVES".

MR. MARRIOTT

73 Lees Ave., Ottawa, Ont., August 9th, 1915.

"I think it my duty to tell you what 'Fruit-a-lives' has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-lives', I thought I would try them. The result was surprising. During the 3 1/2 years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-lives', and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain".

## FOOD SITUATION IN GERMANY IS VERY BAD

Amsterdam.—The German press is again paying considerable attention to the Fatherland's economic condition, and the general impression gathered from various articles is that the state of affairs is exceedingly bad in many ways. There appears to have been a re-erudescence of war profiteering, and the Socialist papers are protesting vigorously at the rising prices for such things as fruit and vegetables at a time when prices should have been falling.

Extraordinary confusion appears to prevail with regard to the distribution of vegetables. The "Hamburger Echo" points out that there is in Berlin a bureau employing 700 officials to supervise this distribution. It works in conjunction with branches all over the country, and there are everywhere bodies to control prices. The organization, says the journal, is all that is admirable, only it does not provide vegetables. In Berlin vegetables appear to be obtained either by pure chance or by payment of exorbitant prices, and complaints appear in every issue of every paper. The whole ponderous organization is incapable of securing the bringing of supplies to market or of preventing producers selling their produce secretly at high prices to those who can afford to pay. Thus producers are making enormous profits, and ordinary people can have nothing.

Complaints about bread are rife. The "Taegliche Rundschau" for example, prints a letter from a resident in the Wilmsdorf suburb of Berlin, in which it is stated that he has been for two weeks without bread, as what he obtained was mouldy.

Coal is exceedingly scarce. Munich reports that it is practically without household supplies. Krefeld's supplies are immediately to be reduced by two-thirds. Most cities will soon be placed under severe rationing both as regards coal and gas.

The Dusseldorf authorities have prohibited street lighting till the middle of September. Only on particularly dark nights, and if there is gas to spare, will street lamps be lit between eleven and one. The lighting of shop windows will not be allowed. The three Bavarian Universities and the technical high school will be closed from October 1 till February 2 to effect a saving in the coal supply.

Such are a few examples of the state of affairs, and they are typical of very many more reported from all over the country.
