

# HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble Since Taking "FRUIT-A-TIVES"

**HATTIE WARREN**  
Port Robinson, Ont., July 8th, 1915.  
"We have used "Fruit-a-tives" in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with Kidney Disease. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try "Fruit-a-tives". She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for "Fruit-a-tives" and would never be without them."

### LAND OWNERS MUST USE THEIR HOLDINGS

Victoria, Sept. 14.—"The time is fully ripe for legislation to remove the many difficulties which exist and for providing the necessary impetus to a movement which will result in the establishment of prosperous agricultural communities. The difficulties are many and varied, but they can be overcome. The greatest obstacle after all is an artificial one and has been created by allowing the bulk of the most fertile and easily accessible lands to pass into the hands of non-users—and consequently non-producers—an obstacle which will ultimately compel land owners either to bring their holdings under production or to dispose of them at a price which will permit of acquisition."

The foregoing was one of the statements made by Hon. John Oliver, minister of agriculture and railways, who arrived in the city last night from his fourteen-day tour of many of the northern districts on the G. T. P. railway. The minister stated that the existing situation from the agricultural standpoint is one calling for immediate remedial measures, and as a means of achieving the end the government had in view when the Premier arranged the ministerial tour, the first essential must be energy directed to see that non-productive but eminently fertile lands are placed at the disposal of agriculturists who not only know how to farm, but who are eager to obey the Dominion-wide exhortation to produce more.

The second step would be to disseminate the knowledge to the landseeker that acreage was available for his use, and as a final means to an end the provision of roads to make settlement not only profitable, but to ensure success in every particular. Those reforms accomplished, the minister has no hesitation in saying that the desirable establishment of the sort of agricultural community now most needed will follow as a natural consequence.
