U. S. GOVT. WILL CONTROL MEAT PACKING HOUSES

Washington, Sept. 21.—Govern-
ment regulation of the meat pack-
ing industry will be the next move
of the food administration. Vol-
untary offer of representatives of
the packers to put their plants
under licensing system, made to
Herbert Hoover, the Food Admin-
istrator, at a conference here
yesterday was accepted, and a
plan of control will be drawn up
shortly.

The packers, numbering about
a score, came to Washington to
take up with Mr. Hoover the
threatened meat shortage and the
subject of rising prices. They are
of one opinion that prices can be
brought down little unless a de-
termined effort is made to in-
crease the production of live
stock. The great export demand,
they believe, will maintain prices
at high level until long after the
war has ended.

A licensing system for packing
houses was provided in the food
control bill. Putting it into op-
eration, food administration of-
ficials believe, will go far towards
eliminating hoarding and specu-
lation and stabilizing prices. The
packers will confer soon with the
cattle growers to discuss the food
administration's plan for remov-
ing herds from the West to better
feeding districts in the East and
South.
